

NEURACLIN 2017

PLACE: South Tees Institute of Learning, James Cook
University Hospital, Middlesbrough, TS4 3BW

DATE: 20th September, 2017

TIME: 10am to 5.30pm

You are warmly invited to attend the 2017 meeting of
NEURACLIN.

REGISTER AT: neuraclin2017.eventbrite.com

NEURACLIN is a network of North-East based Neuroscience and Research oriented Academics and Clinical workers. The aim of NEURACLIN is to bring Academics and Clinical workers together, with a view to making it easier both to share knowledge and to collaborate on research projects. NEURACLIN will primarily focus on memory-affecting disorders, including but not limited to Dementias and Epilepsy.

The organisation of NEURACLIN is led by Drs Colin Lever and James Dachtler (Durham University), and Dr Stephen Evans (NHS South Tees, James Cook University Hospital).

The programme will include the following confirmed speakers:

Prof Nigel Hooper: Molecular mechanisms in dementia.

Prof Jan Oyebode (University of Bradford): Cognitive rehabilitation for people with early dementia

Dr Alan Bowman (NHS and Teeside University): Applying signal detection theory to the study of visual hallucinations in Lewy body disorders.

Dr Paul Donaghy (Newcastle University): Amyloid PET and FP-CIT SPECT in Lewy Body Disease

Dr Stephen Hall (University of York): Epilepsy mechanisms in the neocortex.

Dr Eleanor King (Newcastle University): Peripheral inflammation in prodromal but not established Lewy body and Alzheimer's dementias

Lyn Rogers (Alzheimer's Society Research Network): Background information about the Alzheimer's Society lay member network

Dr James Dachtler (Durham University): Introduction to Durham Against Dementia

Lunch and refreshments will be provided.

For enquiries, please email James Dachtler (james.dachtler@durham.ac.uk),

Colin Lever (colin.lever@durham.ac.uk) or Stephen Evans (Stephen.Evans@tees.nhs.uk).
