

Transforming Our Communities

Public consultation events

The CCG will be sharing a set of options around community health services in Hambleton and Richmondshire including those related to The Lambert Memorial Hospital, Thirsk and the Rutson Ward, Northallerton. The consultation period runs from 1 July until 30 September 2016.

These options have been prepared in light of public feedback gathered from listening events held between March and May this year.

Please come along and have your say; we want to hear your views.
