# Annual Report, 2022/23

# **1. Performance Report**

The purpose of the performance report is to provide an overview of South Tees Hospitals NHS Foundation Trust (the Trust), its purpose and history. The Chief Executive's and Chair's perspective is included together with the key issues and associated risks to the delivery of our objectives.

# **Overview by Joint Chair and Chief Executive**

In May 2023, South Tees Hospitals NHS Foundation Trust became one of the first acute hospital trusts in England since the start of the COVID-19 pandemic in 2020, to achieve a rating improvement to 'Good' from the Care Quality Commission (CQC) for the care delivered to patients and service users.

In an endorsement of the trust's improvement journey since its last full inspection in 2019, the CQC also ranked leadership at the Trust as 'Good'. Following its inspection, the care regulator also rated the trust 'Good' for safety, caring, effectiveness and responsiveness top people's needs.

Over the last three years, our experienced clinicians have laid the foundations of a trust where safety and quality are put first, where colleagues feel empowered to make improvements for their patients and service users, where limited funding is used to invest in the things that experienced clinicians agree will make the biggest difference for the people we serve, and where influence to make positive changes beyond hospital walls is being exercised.

But these are only the foundations of larger change. From its creation 75 years ago, the NHS has been a continuous story of challenges defined, obstacles overcome, and new horizons secured.

In those 75 years, no challenge or obstacle has been greater than those seen following the advent of COVID-19.

The bravery and hard work of health and care colleagues and the efforts and sacrifices of our communities, demand that health and care services emerge stronger from the pandemic over the coming years.

The recovery of NHS services from the impact of COVID-19 has once again led to a renewed focus on need to work closely together across hospitals and other health services.

As literally hundreds of thousands of patients, service users and families in the Tees Valley and North Yorkshire know, local health services have been doing this for many years. There are countless examples where our clinicians have worked together as one NHS to make sure patients and service users receive the right care with the right specialist at the right time.

In January 2023, our trust formalised these arrangements by forming a hospital group with North Tees and Hartlepool NHS Foundation Trust, as our two organisations continue to look beyond the pandemic to improve the recruitment and retention of specialist doctors and nurses, help to improve the health and wellbeing of the populations we serve, and secure the capital investment needed to rebuild and upgrade existing hospital facilities in the Tees Valley and North Yorkshire.

In addition to our work as part of a hospital group, as a regional centre we will continue to foster strong collaboration with other providers of NHS tertiary care. Our partnerships will also continue to evolve and grow with other NHS partners in our region, our Integrated Care Boards, local authorities, communities, elected representatives and the voluntary and community sector, in the singular interests of the people we serve.

Snepa

Sue Page CBE Chief Executive

And Bell

Professor Derek Bell OBE Joint Chair

### Introduction to South Tees Hospitals NHS Foundation Trust

Getting good NHS services is the most important thing to more than 1.5 million patients, service users, carers and families in the Tees Valley, North Yorkshire and beyond who depend and rely on them. It is the most important thing to everyone who works at South Tees NHS Hospitals Foundation Trust too.

Since the autumn of 2019, we've been empowering our clinicians to take the decisions about how we manage our resources and deliver care across our hospitals and services – supported by our scientific teams, administrative, support staff and volunteers.

This is important – not just for our local communities in Teesside and North Yorkshire but for patients across the North East and beyond who rely on us as a specialist centre and regional major trauma centre.

We are an anchor tertiary provider – delivering world-class cancer cardiovascular, neurosciences, women & children's services, spinal, cochlear implant and other highly specialist care for patients across our region. Our major trauma centre sees half of all trauma cases in the North East and North Cumbria.

Our role as an anchor tertiary provider is crucial in ensuring that specialist care is available to patients across our region and that health inequalities are not exacerbated in our communities. Our Friarage Hospital is a nationally recognised NHS surgical hub and in 2023 building work began on a new theatre complex which more than double the number of planned operations carried out at the hospital each year.

Together with our hospitals and health and social care partners, our community teams deliver care closer to home for patients everywhere from the Dales to the North East coast.

Over the last three years, our experienced clinicians have laid the foundations of a trust where safety and quality are put first, where colleagues feel empowered to make improvements for their patients and service users, where limited funding is used to invest in the things that experienced clinicians agree will make the biggest difference for the people we serve, and where influence to make positive changes beyond hospital walls is being exercised.

But these are only the foundations of larger change. Our commitment to leading-edge clinical research, education, training and innovation – with the needs of our patients, service users and colleagues at the centre – is at the heart of this next phase of our clinically-led journey over the next three years.

In parallel, our decision in 2023 to come together with North Tees and Hartlepool NHS Foundation Trust to form a hospital group will support both organisations' shared goals for our patients, service users and colleagues by formalising the way we already work together in the interests of the people and communities we have the privilege to serve.

# Our mission, vision values and behaviours

### **Our mission – Safety and Quality First**

As a clinically-led organisation the safety and wellbeing of our patients, service users and colleagues - underpinned by our commitment to clinical research, innovation and training - is at the heart of our mission.

### **Our vision**

Our clinicians lead by the way they manage our limited resources and deliver safe, quality care across our hospitals and services – aided by the experience, professionalism and skills that exist across our clinical and support areas.

### **Our values and behaviours – The South Tees Way**

The values and behaviours of our nurses, midwives, doctors, allied health professionals, scientific teams, administrative, support staff and volunteers were instrumental in helping our services to meet the challenges presented by COVID-19, and our continued recovery from the effects of the pandemic. They are the words we want our patients, service users and colleagues to be able to use to describe how it feels to receive care or work in our hospitals and services.

### Respectful

I am respectful because I listen to others without judgement. I promote equality and diversity and treat others as they wish to be treated. By holding myself and others to account I demonstrate my professionalism and integrity to my colleagues.

### Supporting

I am supportive because I acknowledge the contribution of my colleagues. I support my colleagues and our trainees to develop themselves in order to deliver the best possible care to our patients and families. Being part of a team requires me to be honest, available and ready to help others and myself.

### Caring

I am caring because I show kindness and empathy to others through the delivery of individual and high-quality care to our patients, families and my colleagues.

# **Strategic objectives**

We have five strategic objectives to help us deliver our mission, vision and values:

- Best for safe, clinically effective care and experience.
- A great place to work.
- A centre of excellence for core and specialist services, research, education, training, innovation and digitally supported healthcare in the North East of England, North Yorkshire and beyond.

- Deliver care without boundaries in collaboration with our health and social care partners.
- Make best use of our resources. Strategic objectives

# Framework of continuous improvement

Through our commitment to leading-edge clinical research, education, training and innovation – with the needs of our patients, service users and colleagues at the centre – we will:

### Support care

- Provide focused support to specialities through our Leadership Improvement and Safety Academy.
- Make it easier for patients who are ready to leave hospital, and for those who are waiting to come in.

### Develop care

- Continue to grow elective care at the Friarage Hospital.
- Develop community services and partnerships to provide alternatives to hospital focusing on safe, high-quality care closer to home for frail and older people.
- Enable specialist services to thrive and grow at The James Cook University Hospital and embed a three-yearly cycle of service reviews with the patient and service user voice at the centre.

### Connect care

• Ensure through our hospital group and wider partnerships that we work as one health and care system: delivering safe, quality care in a joined-up way 'without organisational boundaries' to improve the recruitment and retention of specialist doctors and nurses, join with local communities and partners to help improve the health and wellbeing of the populations we serve, and secure the capital investment needed to rebuild and upgrade existing hospital facilities in the Tees Valley and North Yorkshire.

# **Performance Analysis**

### How the Trust measures performance

We measure performance according to the delivery of objectives outlined in our Improvement Plan. The Trust refreshes its clinically-led plan annually. Our five key objectives are unchanged:

- Best for safe, quality patient care and experience
- A great place to work
- A centre of excellence, for specialist services, research, education and innovation in the Tees Valley and North Yorkshire
- Deliver care without boundaries in collaboration with our health and social care partners
- Make best use of our resources

We measure our performance against these objectives using a range of improvement markers, from mandatory performance standards to soft intelligence and patient feedback.

We have harness benchmarking information to understand the opportunities to improve productivity and efficiency, as well as to ensure that services meet key quality standards.

The Trust Board receives an Integrated Performance Report, produced monthly, which provides headline metrics aligned to the NHS Oversight Framework and CQC domains, with commentary and trends. It includes measures of patient safety, clinical effectiveness, performance and access across emergency care, cancer and planned care (including analysis to highlight potential inequalities) workforce key performance indicators and our financial position.

Underpinning the metrics summarised to our Board is information made available to the relevant committees, groups and services. During 2022/23 a suite of interactive online reports and dashboards have been developed. These is used to ensure our decisions are evidence-based and the impact of improvement activities is monitored.

### Activity

The Trust completes an annual planning cycle using analysis of demand and capacity to determine the expected activity for each specialty, and to model any changes and developments. This includes our response to local and national policy priorities, such as the development of Virtual Wards and Urgent Community Response. Activity and performance, workforce and financial position are triangulated.

Activity is monitored compared to plan, so that variances can be acted upon to best meet the needs of patients and service users. During 2022/23 and into 2023/24 activity plans have focused on the NHS recovery from the COVID-19 pandemic to reduce waiting times in elective care and cancer services. Our activity plans also reflect the need to make best use of available resources across emergency care, acute, community and social care services to provide the right care in the right place.

### Quality

One of the central ways in which we monitor the quality of care we provide and how we are continually improving as a Trust is through our annual priorities for quality improvement.

Other sources of information which inform how we are performing from a quality perspective include:

- Patient experience data
- Complaints and patient feedback
- Clinical audit

Further information on how we monitor quality and performance against our quality priorities is outlined in our Quality Account.

### Operations

We consider a wide range of national, regulatory, and internal measures in order to assess operational performance. This includes, for example, analysis of performance against the national target for the elimination of long waits (78 and 52 weeks) for patients awaiting non-urgent procedures whose care has been disrupted by the COVID-19 pandemic.

### Finance

Each year the Trust develops to a financial plan which includes a cost improvement target to be achieved, a capital plan, and a forecast outturn for the year end.

### Patient and service user experience

Our patients and service users are at the heart of everything we do. We strive to continually provide the highest standard of experience of care to every patient and service user. We proactively seek their feedback to identify good practice and implement improvements where necessary to ensure we are meeting our patients' and families' expectations.

The Trust participates in several national patient surveys and has local patient experience surveys available in all inpatient areas via iPads. Patients attending outpatient appointments or using emergency care services receive a text message or email to provide their feedback. This supports the collection of real-time feedback to improve the patient and service user experience while it is still relevant, or they are still receiving care. There is also the opportunity for patients and service users to provide feedback about their care to the Patient Experience Team / Patient Advice and Liaison Service (PALS) who work to support a timely response.

The Trust is also an active participant in the 'Ask Listen Do' campaign, which ensures patients with a learning disability are provided with help and support to raise and concerns and provide feedback.

We invite patients and carers to share their stories at our Trust Board meetings and other internal meetings to allow colleagues to hear their experiences first-hand. Patient experience is integral to the multidisciplinary teams across the Trust to facilitate shared learning and improvements.

The Trust works collaboratively with external partners, including Healthwatch South Tees and Redcar & Cleveland, North East NHS Independent Complaints Advocacy Service, Carers Together, Carers Plus and Age Concern to ensure we hear the voices of patients and service users who we may otherwise not receive feedback from. We continue to develop relationships with local communities and charities to support the development and improvement of our services. In 2022/23 we held engagement events in collaboration with Healthwatch South Tees - involving patients and carers in the development of our new patient experience and involvement strategy.

#### **Complaints and PALS**

In 2022/23 there were 306 formal complaints received by the Trust, a decrease of 8% on the previous year (2021/22) when 339 formal complaints were received. This reduction is a postive indicator of concerns being resolved locally without requiring the support of the Patient Experience Team.

There were 1,122 advice/enquiry/concerns received by the Trust in 2022/23 which is a decrease from 2021/22 when 1,539 were received (a reduction of 27% on the previous year). This is the third consecutive year which has seen a reduction in concerns being logged via the Patient Advice and Liaison Service (PALS).

#### Patient Surveys

We continue to gain feedback from our patients though local surveys. There are currently 25 patient surveys utilised in the Trust. These include the adult inpatient, outpatient, A&E, maternity, children & young people and community surveys. The majority of comments received from patient surveys are positive. Staff mentioned in positive comments are informed as an acknowledgement of good practice. Wards and departments access their data, which is used at ward/departmental meetings to identify areas of good practice and identify areas for improvement.

The Friends and Family Test (FFT) is inclued in all local surveys and we routinely score the same or above the national average for positive responses to the question.

The National Adult Inpatient Survey - The trust scored 'somewhat better' than other trusts in questions relating to the hospital. The Trust were the same or equal to the national average in all sections.

Maternity Survey – the trust scored much better in one question, better than most trusts in six questions, somewhat better in seven questions and better than expected in one question. During the antenatal period, mothers reported being given enough support with mental health and being treated with dignity and respect. During the labour, mothers' experiences included being taken seriously when raising a concern during labour and birth, not being left alone by midwives and doctors at a worrying time, staff being aware of medical history, staff introducing themselves, being spoken to in a way they understand and being treated with dignity and respect during the labour. Following the birth mothers' reported being treated with kindness and compassion and the cleanliness of the ward area. They also felt they were offered active support and encouragement from professional with feeding their baby.

# Staff experience and engagement

The Trust has been ranked in the top two most improved hospital trusts in the country for two out of the last three years in the national NHS Staff Survey

In the NHS Staff Survey from 2019 to 2022, the trust has seen the largest increase of any acute hospital trust in England for the number of staff who say patient / service users care is the organisation's number one priority (+14%), and the number of staff who would recommend the organisation as a place to work (+11%).

### **Diversity and equality**

The Trust has seen a significant increase in the number of colleagues reporting they think that the organisation respects individual differences (e.g. cultures, working styles, backgrounds, ideas etc.) - 67.8% in 2022 and 65.7% in 2021. This demonstrates that colleagues across the trust have also continued to embed and demonstrate our values and behaviours.

### **Raising concerns**

In line with the progress seen in 2020 and 2021, the 2022 NHS Staff Survey results show once again that the Trust is still ranked as one of the top hospital trusts in the country on the National Freedom to Speak Up Index. Although there has been an overall national decline in responses, the 2022 results show continued confidence at the Trust when compared to the national average.

In response to the four questions relating to speaking up the Trust scored as follows:

- Q19 a: I would feel secure about raising concerns about unsafe clinical practice 74.2% (above the national average of 70.8%)
- Q19 b: I am confident that my organisation would address my concern 58.30% (above the national average of 55.70%)
- Q23e: I feel safe to speak up about anything that concerns me in this organisation 63.1% (above the national average of 60.3%)
- Q24: If I speak up about something that concerns me, I am confident that my organisation would address my concern 48.1% (above the national average of 47.2%)

### NHS Staff survey 2022

As described above, the NHS staff survey is conducted annually. From 2021 the survey questions align to the seven elements of the NHS 'People Promise' and retains the two previous themes of engagement and morale.

Scores for each indicator, together with those of the survey benchmarking group (Acute and Acute & Community Trusts) are presented below alongside comparable results from the 2021 NHS Staff Survey:

Indicators ('People Promise' elements	2021/22		
and themes)	Trust score	Benchmarking group	
		score	
People Promise:			
We are compassionate and inclusive	7.3	7.2	
<ul> <li>We are recognised and rewarded</li> </ul>	5.7	5.7	
We each have a voice that counts	6.7	6.6	
We are safe and healthy	5.8	5.9	
We are always learning	5.3	5.4	
We work flexibly	5.8	6.0	
We are a team	6.7	6.1	
Staff engagement	6.8	6.8	
Morale	5.7	5.7	

#### NHS Staff Survey 2022

#### NHS Staff Survey 2021

Indicators ('People Promise' elements	2021/22		
and themes)	Trust score	Benchmarking group	
		score	
People Promise:			
We are compassionate and inclusive	7.3	7.2	
<ul> <li>We are recognised and rewarded</li> </ul>	5.9	5.8	
We each have a voice that counts	6.8	6.7	
We are safe and healthy	5.9	5.9	
We are always learning	5.1	5.2	

We work flexibly	5.8	5.9	
We are a team	6.7	6.6	
Staff engagement	6.9	6.8	
Morale	5.8	5.7	

### Future priorities and targets

Following the publication of the 2022 NHS staff survey, the Trust's Clinical Collaboratives will develop action plans with progress monitored through our People Committee.

In partnership with our staff side colleagues the Trust will take a theme per month and develop a 'you said we did' plan with a specific focus on 'We are always learning', 'We work flexibly' and 'Staff Morale'.

# Equality of service delivery to different group

The NHS is for everyone. Anyone needing the NHS should receive the same high-quality care every time they access services. However, we know that some people in our communities can experience barriers or judgement when using NHS services.

South Tees Hospitals NHS Foundation Trust recognises the challenges that patients and service users could face, including language barriers, support to access services or stigma regarding accessing mental health services.

Understanding our patient and service user needs is our priority and it helps us to ensure our services are accessible, safe and inclusive for everyone.

The Trust is committed to identifying, understanding and overcoming any barriers for our patients and service users. This ensures that the way we work and the services we offer are respond inclusively to cultural, physical and social differences.

Throughout our COVID-19 response and recovery, we have looked for evidence of disproportionate impact on specific groups, both of COVID-19 itself and other conditions. For example, we monitored COVID-19 admission rates and mortality by postcode, age and ethnicity and shared this information with local Public Health colleagues to support targeted action. We monitored cancer referrals by postcode and highlighted those areas with disproportionate reductions to the Cancer Network.

Our Health Inequalities Group provides direction and oversight to ensure the Trust focuses on reducing health inequalities in the most vulnerable groups and national/local clinical priority areas. The Trust reviews its waiting list for inequalities and this information is presented and discussed at each of its Board meetings.

# **Engaging with stakeholders**

Anchored in the communities we serve, we work to contribute to our local area and influence the wider determinants of health by operating as a good partner, seeking to be a leader in bringing inward investment into the Teesside and North Yorkshire, widening access to employment, continuing to reduce our environmental impact and thus supporting healthy and prosperous people and places.

Stakeholder engagement is central to this work and building strong partnerships and relationships.

# Subsidiary undertakings

The Trust created a Limited Liability Partnership (LLP) in May 2016 to act a body through which research funds could be managed. The LLP is called South Tees Institute of Learning, Research and Innovation LLP. The company was dormant during 2022/23 and will not be consolidated as part of the Trust Group for the financial year to 31 March 2023.

Limited Liability Partnerships must always have two members (partners). To ensure compliance with this requirement, South Tees Hospitals NHS Foundation Trust also created a Limited Liability Company in May 2016. The LLC is called South Tees Healthcare Management Limited.

Together, the Trust and South Tees Healthcare Management Limited are the members (partners) of South Tees Institute of Learning, Research and Innovation LLP.

When setting up this arrangement in 2016, the Trust intended for South Tees Healthcare Management Limited to remain dormant and act as one of the members (partners) of South Tees Institute of Learning, Research and Innovation LLP.

When changes to the provision of the Trust's outpatient pharmacy took place in 2019, South Tees Healthcare Management Limited was chosen to enable outpatient pharmacy services to be placed back under the control of the Trust as a wholly owned subsidiary. The operations of this company were consolidated and are reported in the Group position at 31 March 2023.

# Key issues and risks

To maintain a strong system of governance, the Board of Directors regularly review the key issues and risks that may undermine the achievement of the Trust's strategic objectives. The matters outlined below are those that the Board of Directors considers to be of particular significance to the Trust:

### • Access targets

During 2022/23 the Trust has continued to make progress against national recovery targets. During the year, challenges in the social care sector continued to be observed and the trust has worked closely with local authorities and other partners to ensure that everything possible is done to ensure people who are ready to leave hospital, who require social care support, are able to access this as quickly as possible.

### • Quality targets

All aspects of quality are reviewed through our Quality Assurance Committee. In addition, the Trust's Leadership Improvement and Safety Academy provides a range of support, including leadership and management training, quality improvement skills, team and service support, coaching and human factors training.

### • Financial sustainability

South Tees Hospitals NHS Foundation Trust entered into a Private Finance Initiative (PFI) scheme in 1999 to enable the re-location of its Middlesbrough services onto a single site - creating The James Cook University Hospital in its current location. The PFI was part of a first tranche of NHS schemes.

In 2021/22, the revenue costs of the James Cook PFI were £46 million and rose to £50m in 2022/23. In addition, 'life-cycle' costs (mandatory annual maintenance charges built into the PFI scheme) are required to be paid each year from the Trust's capital budget.

The total annual payments (revenue and capital) by the Trust for the James Cook PFI scheme were £58 million in 2021/22 and rose to £65 million in 2022/23. The PFI scheme is now adding approximately £20 million each year to the Trust's expenditure compared to a hospital provided through public capital/borrowing. This additional cost is the largest single contributor to the Trust's structural deficit.

# **Going concern**

These accounts have been prepared on a going concern basis. The financial reporting framework applicable to NHS bodies, derived from the HM Treasury Financial Reporting Manual, defines that the anticipated continued provision of the entity's services in the public sector is normally sufficient evidence of going concern. The directors have a reasonable expectation that this will continue to be the case and the financial statements have been prepared on a going concern basis.

# **Better Payment Practice Code**

Unless other terms are agreed, we are required to pay our creditors within 30 days of the receipt of goods or a valid invoice, whichever is later. This is to ensure that we comply with the Better Payment Practice Code. The Trust's performance against this metric is shown as follows:

Non NHS	NHS
Target: 95%	Target: 95%
Result by number: 96.8%	Result by number: 89.5%
Result by value: 92.5%	Result by value:92.7%

A detailed breakdown of the figures is shown below:

	2022/23		2021/22	
	Number	£000	Number	£000
Total non NHS trade invoices paid in the year	88,495	475,052	92,133	462,098
Total non NHS trade invoices paid within target	85,707	439,459	87,243	426,766
% of non NHS trade invoices paid within target	96.8%	92.5%	94.7%	92.4%
Total NHS trade invoices paid in the year	2,445	77,728	786	13,216
Total NHS trade invoices paid within target	2,189	72,058	623	10,807
% of NHS trade invoices paid within target	89.5%	92.7%	79.3%	81.8%

Interest paid under the Late Payment of Commercial Debts (Interest) Act 1998 amounted to £1,325.

# Freedom to Speak Up Guardian

Freedom to Speak is a national requirement for all NHS Organisations. Freedom to Speak Up has the potential to improve both patient and service user outcomes and experiences. In addition, it can improve the working experiences of our colleagues, thereby increasing job satisfaction and retention.

Our new model of Freedom to Speak Up was introduced in August 2020 and a team of four part-time Guardians were introduced to the organisation. This has increased visibility, awareness and accessibility to the team and provided valuable learning opportunities for the trust.

A wide range of information is gathered by the Guardians. The data collected and collated since its inception reflects the positive impact the new model for speaking up has had for patients, service users and colleagues.

# **Sustainability and the Environment**

The NHS has set its targets for carbon emissions as follows:

- The NHS Carbon Footprint (emissions that we control directly) to reach net zero by 2040, with an ambition to achieve an 80% reduction by 2028-2032.
- With regards to the emissions we can influence (our NHS Carbon Footprint Plus) we we will reach net zero by 2045, with an ambition to achieve an 80% reduction by 2036-2039.

In order to achieve this, South Tees NHS Foundation Trust has aligned itself with The North East and North Cumbria Integrated Care Board (NENC ICB).

By working collaboratively with the NENC ICB a regional Green Plan has been approved in order to ensure faster progress towards the 2030 vision to be 'England's Greenest region'.

To support this further the Trust has maintained and accelerated its own Green Plan, which is now been reduced to three instead of five years. New ideas and concepts are included from all areas of the Trust, thereby giving our patients and staff a 'voice' into how they perceive, and can improve, our environment here at the Trust and the local community.

Examples of areas where we have seen improvements and developments in 2022/23 include:

- Opening of an Eco shop for staff
- Reuse walking aids scheme
- Increased mixed recycling across Trust sites
- Installation of 12 Electric Vehicle charging points, with more to be implemented
- Upholstery of furniture reupholstery of chairs Via Northumbria innovation hub
- ISO14001 (Environmental management system) renewal in April 2023
- Continuing with anaerobic digestion

- Increase in staff engagement in order to ensure the Trust's commitment to the green plan
- Monthly combined greener NHS & waste staff group meetings welcome and implement new innovations
- Theatres monthly sustainability meetings
- Yearly sustainability events and competitions
- Ongoing trail with hydrogen vehicles

South Tees Hospitals NHS Foundation Trust has aligned itself with the regional network to deliver an ambitious 3-year Green Plan in order to achieve the target of the NHS becoming net zero for carbon emissions by 2040. This takes into account the NHS Standards Contract for 2022/2023, whilst also supporting our ISO 14001:2015 Environmental Management System accreditation.

# **Clinical Waste**

The clinical waste produced over the past year has still been at a high level due to the ongoing response to the COVID-19 pandemic. However, this has been managed effectively by our PFI provider at The James Cook University Hospital, and estates team at the Friarage Hospital. In addition, there are robust waste contracts in place which have enabled the Trust to remain compliant and safe.

### 2022/23

- Ensure Trust is working in line with the new 2023 HTM 07-01 and clinical waste strategy
- Increased staff communication via Trust bulletin and posters regarding waste segregation
- Neptune 3 used in theatres this Stryker innovation is designed to allow the Trust to safely collect and dispose of surgical fluids
- Increased offensive waste stream into theatres

# 2. Accountability Report

# **Director's report**

# The Board of Directors – role and responsibility

Our Board of Directors ('the Board') functions according to corporate governance best practice. The Board operates as a unitary Board with collective accountability for all aspects of Trust performance, from clinical quality to financial performance and sustainability. Key responsibilities of the Board are:

- Setting the strategic direction whilst taking into account the views of the Council of Governors
- Ensuring adequate systems and processes are in place to deliver the Annual Operational Plan
- Ensuring that services provided are safe, and clean, and that personal care is provided to patients

- Ensuring robust governance systems and processes are in place supported by an effective assurance framework that supports sound systems of internal control
- Ensuring rigorous performance management to ensure the Trust achieves local and national targets
- Measuring and monitoring efficiency and effectiveness
- Continuous improvement
- Exercising its powers established under statue, as described in the Constitution which is available at: www.southtees.nhs.uk

The Board is led by the Chair, Professor Derek Bell, who was appointed in September 2021 as Joint Chair across both South Tees Hospitals NHS Foundation Trust and North Tees and Hartlepool NHS Foundation Trust.

For some time now, the Trust has been working closely with North Tees & Hartlepool NHS Foundation Trust to support collaborative working. In 2021/22, the trusts established a Joint Partnership Board. The purpose of the Joint Partnership Board is to provide formal strategic leadership of the partnership arrangements between the two organisations. It is responsible for overseeing, coordinating and ensuring delivery of the strategic intent of the partnership to secure the future of high quality, safe and sustainable healthcare across the population of the Tees Valley and North Yorkshire.

In January 2023, both Trusts form a hospital group in order to support each organisation's shared goals for patients, service users and colleagues. Under the hospital group model, which will be developed over the next two years, both trusts will remain as statutory organisations.

The Joint Partnership Board meets each month and the membership comprises:

- Voting members: the Joint Chair and the voting Board of Director members of South Tees Hospitals NHS Foundation Trust and North Tees and Hartlepool NHS Foundation Trust.
- Non-voting member: the Joint Director of Strategy and Partnerships.

The Trust's Senior Leadership Team is led by Ms Sue Page, Chief Executive and accountable officer.

The South Tees Hospitals NHS Foundation Trust Board sets the strategic direction for the Trust within the context of NHS priorities, allocates resources, monitors performance against organisational objectives, ensures that clinical services are safe, of a high quality, patient-focused and effective, ensures high standards of clinical and corporate governance and, along with the Council of Governors, engages members and stakeholders to ensure effective dialogue with the communities we serve.

The Board of Directors is responsible for exercising all of the powers of the Trust; however, the Board has the option to delegate these powers to senior management, and other committees. The Board has several committees which support the seeking of assurance in relation to quality, performance and risk management throughout the Trust.

These committees are: Audit & Risk Committee, Chaired by Mr Readshaw; Quality Assurance Committee Chaired by Ms Davidson; Resources Committee, Chaired by Mr Redpath;

Remuneration Committee, Chaired by Professor Bell and People Committee, Chaired by Mr Dias.

The Trust has a Scheme of Delegation which outlines when approval for a decision is required from the Board or one of its committees, such as for a high-value business case, and decisions which the Senior Leadership Team are permitted to make without further approval. The Board of Directors is jointly responsible for scrutinising and constructively challenging the performance of the Trust to ensure we deliver our strategy, continuously improve and deliver high quality care.

Each of the board committees undertakes a performance evaluation on an annual basis using a standard template across each of the committees, excluding the Audit & Risk Committee. The output of which is reported to the committee and as a whole to the Audit & Risk Committee.

### **Board composition**

The Board is comprised of five Executive Directors, eight Non-Executive Directors and two associate Non-Executive Directors, including a Non-Executive Chair. The size of the Board is considered to be sufficient and the balance of skills and experience appropriate for the current requirements of the business.

Board members undergo an appraisal process which includes consideration of how an individual's contribution is aligned to our values: Respectful, Caring, Supportive. The Chief Executive leads the annual evaluation of each Executive Director and Directors, and the results of evaluations are summarised and reported to the Non-Executive Directors at the Remuneration Committee.

The Chair and Non-Executive Directors are appointed by the Nomination Committee, which is comprised solely of Governors and the Senior Independent Director, for terms of office of up to three years and may seek reappointment in line with the provisions set out in the NHS Foundation Trust Code of Governance ('the Code'). All the Non-Executive Directors are considered to be independent in character and in judgement.

Additional assurance of independence and commitment for those Non-Executive Directors serving longer than six years is achieved via a rigorous annual appraisal and review process in line with the recommendations outlined in the Code.

The Executive Directors and Directors are appointed by the Remuneration Committee on behalf of the Board of Directors. All Directors are appointed on permanent contracts and undertake an annual appraisal process to ensure that the focus of the Board remains on the delivery of safe, high quality, patient and service user-centred care.

The composition of the Board over the year is set out on the following pages and includes details of background, committee membership and attendance. The performance of the Board as a whole is reviewed on an annual basis by undertaking a self-assessment of the effectiveness of the Board of Directors, subsidiary Boards and Board of Directors' committees.

### **Board of Director Meetings**

The Board held ten meetings in during 2022/23 of which six were public with a small element of business conducted in private due to the confidential nature of business to be discussed.

# **Non-executive Professor Derek Bell OBE** – (Joint Chair) **Directors** Derek has 40 years' experience in the NHS and previously served as president of the Royal College of Physicians. He was awarded an OBE in 2018 for services to unscheduled care and quality improvement. Appointed 1 September 2021 Ada Burns – Non-executive Director/Senior Independent Director Ada had a lengthy career in local government, in regeneration roles in London Councils, and until 2018 as chief executive of Darlington Borough Council. In this role she worked across the Tees Valley with a particular interest in health inequalities. Ada is chair of Teesside University, and a trustee of a community arts centre. Appointed 1 October 2019 for a three-year term Reappointed 23 March 2023 for a further three-year term Richard Carter-Ferris – Non-executive Director / Vice Chair Richard is a chartered accountant and an experienced finance professional having worked at a senior level in a number of large businesses. Richard's previous roles included global financial controller for GE Plastics, director of internal audit for Wal-Mart Europe, finance director for National Express East Coast and finance director for Vantage Airport Group and working as a consultant providing tax and financial planning advice. Now retired, he resides in North Yorkshire with Sue, his wife. In the distant past Richard played first class rugby for Saracens, but now enjoys the gentler sports of golf and skiing... Appointed 1 August 2015 for a three-year term Reappointed 1 August 2018 for a further three-year term Reappointed for one additional year to 31 July 2022 Reappointed for one additional year fixed term to run concurrently with appointment of Vice Chair on 30 August 2022

### **Board of Directors Profiles**

David Redpath - Non-executive Director
With roots firmly in the North East, David has enjoyed over 20 years in technology leadership and advisory roles around the world. His most recent role as a senior executive partner at research and advisory company Gartner sees him act as strategic advisory to multiple public and private companies in the UK. Prior to this David performed several CIO roles in different industries and served as a non-executive director at Newcastle Building Society and the Nation Union of Students. Married with two children and living in County Durham, David joined the board in January 2021
 <ul> <li>Appointed 3 December 2020 for a two-year term</li> <li>Appointed as full Non-executive Director on 1 August 2021 for three-year term</li> </ul>
Ali Wilson - Non-executive director
Ali has a long history of public service, having begun her NHS career as a nurse in the early 1980s. She has held a variety of clinical, managerial and academic positions, leading and evaluating service improvement, major service and organisational change. Before her retirement from a full-time senior leadership role in 2018, Ali was the chief executive officer for NHS Darlington and NHS Hartlepool and Stockton-on-Tees Clinical Commissioning Groups and chair of the North East Leadership Academy.
 Appointed 19 July 22 for initial three-year term
Mark Dias - Non-executive director
Mark is a fellow of the Chartered Institute of Personnel and Development (CIPD) and an experienced human resource professional having worked at a senior level in a number of multi-national organisations. Mark's previous roles included EMEA employee relations director for Cummins, HR director for DS Smith and HR business partner at Nuffield Hospitals. A former serving police officer at Cleveland Police and commended for standing up for equality and integrity in policing. He is a self-employed consultant providing HR consultancy and mediation services to a range of clients.
Appointed 19 July 22 for initial three-year term
Miriam Davidson - Non-executive director
While Miriam is proud of her Australian heritage she has lived and worked happily in the North East for over 35 years. Throughout her career in the NHS (1988 to 2014) and local government (2014 to 2020) she has held senior roles in health improvement and public health. Miriam is a registered specialist in public health and during her post as director of Public Health for Darlington she was also vice chair of the north east branch of the Association of Directors of Public Health. More recently Miriam has supported the North East Public Health Specialty Training Programme (HEE), as head of School of Public Health. Miriam continues to coach, mentor and appraise specialists in public health. Her focus is on health inequalities and the challenge of why health appears to be for some, not all.
Appointed 19 July 22 for initial three year term

<ul> <li>Ken Readshaw -Non-executive director</li> <li>Ken is a chartered accountant with considerable experience of the chemical and power generation sectors, both in the UK and abroad. He was previously audit chair of NHS North Yorkshire Clinical Commissioning Group, has several charitable roles, and is passionate about helping to provide communities with the best possible public services.</li> <li>Appointed 19 July 22 for initial three-year term</li> </ul>
<ul> <li>Rudy Bilous - Associate non-executive director</li> <li>Rudy is a retired consultant endocrinologist working at South Tees from 1990 until 2016. He was appointed Professor of clinical medicine at Newcastle University in 2000 and was the sub dean for Medical Education on Teesside for over 15 years. He has held senior positions in Diabetes UK (the national charity for people with Diabetes) and the Royal College of Physicians. He has also served on the Council of the European Association for the Study of Diabetes as well as many research committees in the UK, Europe and the USA. He was dean of clinical affairs for the Newcastle University Medical School in Malaysia (NUMed) from 2016 to 2018, and acted as a consultant in medical education at The James Cook University Hospital from 2019 to 2022.</li> <li>Appointed 19 July 2022 for initial two-year term</li> </ul>
<ul> <li>Alyson Gerner - Associate non-executive director</li> <li>Alyson is a chartered accountant and has extensive experience in procurement, commercial, assurance, governance and finance in the NHS, the Department for Health and the Department for Education (DfE). At one stage she was director of NHS Commercial Development. She is currently the finance director of a property company that is an arm's length body of the DfE</li> <li>Appointed 19 July 2022 for initial two-year term</li> </ul>

# Executive Directors

### **Sue Page** – Chief Executive Officer

Sue has worked in the NHS for more than 30 years as Chief Executive in London, Cumbria, the North East and Liverpool. She has led hospital and community trusts, with a particular focus on improving organisations and leading them through significant change. Sue has previously worked in the northern NHS region, leading hospital and community services in Northumberland and North Tyneside from 1990 to 2005, resulting in the creation of Northumbria Healthcare NHS Foundation Trust in 1998. She also ran NHS Cumbria for seven years from 2006 to 2013 and received a CBE for services to the NHS in 2000.

- Appointed Interim Chief Executive Officer on 1 October 2019
- Appointed as permanent Chief Executive Officer on 1 July 2020

### Rob Harrison – Managing Director

Rob joined the Trust in 2020 from Harrogate and District NHS Foundation Trust, where he served as Chief Operating Officer for ten successful years. Rob holds a postgraduate diploma in Health Service Management from the University of Birmingham and a bachelor's degree in Applied Biochemistry from the University of Liverpool and worked in the pharmaceutical research prior to joining the NHS Graduate Management Training Scheme. He subsequently held NHS management positions in Lancashire, Merseyside and Cheshire, prior to moving to Harrogate in 2010.

 Appointed on 1 September 2020 (voting member of the Board from 1 November 2020)

### Dr Michael Stewart – Chief Medical Officer

Michael is a consultant cardiologist and was appointed chief medical officer in 2021. Most recently, he served as director of cardiovascular services at Auckland District Health Board. Prior to this Michael worked as a cardiologist at South Tees Hospitals NHS Foundation Trust from 1996 to 2018 where he also held medical leadership roles.

Appointed 1 February 2021

# **Dr Hilary Lloyd** – Chief Nurse

Dr Hilary Lloyd was appointed chief nurse in 2021. Hilary qualified in 1989 and has held a number of nursing posts including acute health care, education and research. Most recently she served as the director of nursing, midwifery and quality at Gateshead NHS Foundation Trust.

Appointed 1 March 2021

### **Chris Hand** – Chief Finance Officer

Chris is a qualified accountant with over 20 years' experience in NHS financial management, including 13 years at Northumbria Healthcare NHS Foundation Trust. Most recently, Chris served as the executive director of finance at Northumberland County Council.

• Appointed 1 March 2021

# Attendance at Board meetings 2022/23

# **Declaration of Interests of the Board of Directors**

An annual review of the Board of Director's Register takes place alongside the annual review of the Fit and Proper Person Regulation assessment. This is in addition to any changes to Directors interests declared at the next routine meeting following the change to their interests. The Board of Directors has a standing agenda item which requires Executive and Non-executive Directors to declare any interest in relation to agenda items and any changes to their declared interests. The Register of Board interests is available for public inspection via the Trust's website.

### **Foundation Trust Membership**

We involve our Governors who represent the members from South Tees Hospitals NHS Foundation Trust's (STHFT) constituent areas in developing our forward plans. By involving Governors in designing services and improving care we ensure that the views of local people are being heard and we enhance the experience of patients, carers, visitors and colleagues.

In May 2009 our original membership was established and since then we have worked to maintain and engage with our representative membership. By engaging with members and the public ensures that the views of local people and those further afield are taken into account; this helps to improve the experience of our patients, visitors and staff.

Our membership consists of public, patients/carers and staff and is described in more detail below:

### **Public members**

We have 3,619 public members covering Middlesbrough, Redcar and Cleveland, Hambleton and Richmondshire and the remainder of the United Kingdom.

Public membership	Number of members (31 March 2023	Eligible membership
Age (years)		
16-21	5	23,117 ( R – 26,998)
22-59	1,403	197,875 (R – 200,463)
60+	2,083	118,360 (R - 118,772)
Unknown	128	-

A member of the public who is 16 years of age or over and lives within STHFT's public constituent areas or who has been a patient and/or carer within the last ten years can become a member of our Trust for one of the following areas:

- Middlesbrough
- Redcar and Cleveland
- Hambleton and Richmondshire
- Rest of England
- Patient and/or Carer

### **Staff members**

When joining STHFT a staff member on a contract of more than 12 months automatically becomes a member unless they choose to opt out. This staff constituency also includes: Endeavour SCH Plc; Serco; Middlesbrough Council Hospital Social Work Team; and Cambridge Perfusion Services.

Constituency	Actual	Actual
	31 March 2022	31 March 2021
Staff	8628	9842

The tables below provide details of STHFT's membership:

Public Constituency	Actual 31 March 2022	Actual 31 March 2021
Middlesbrough	2,630	1,164
Redcar and Cleveland	2013	1,088
Hambleton and Richmondshire	1367	1,045
Rest of England	2618	316
Patient and/or Carers	522	500

We communicate and engage with our members, patients, carers and volunteers through a variety of channels, these include:

- > STHFT website
- Digital media
- Local media
- Annual Members' meetings

As part of the on-going work across the Teesside we have worked closely with our partnership organisations, including Specialised Commissioning, Middlesbrough Council, Redcar and Cleveland Council, North Yorkshire Council, our ICBs, Durham University, Newcastle University, Teesside University, Healthwatch and many other organisations across the third sector. We have plans to engage further with all our membership and key stakeholders.

Further information on membership and how to communicate with Governors can be found on our website: <u>www.southtees.nhs.uk/about/membership</u> or email: <u>stees.foundation.trust@nhs.net</u>

### **Council of Governors**

Our Council of Governors has a membership of 31; five represent Middlesbrough; five Redcar and Cleveland; five Hambleton and Richmondshire; one Rest of England; two Patient and/or Carers; three staff; and 10 represent our partner organisations.

The Council of Governors directly represents members of the public, staff, and other stakeholders and forms an integral part of our governance structure.

The Council of Governors has a number of statutory duties. The Governors appoint the Nonexecutive Directors, including the Chairman, to STHFT's Board of Directors. They also have a key role in holding Non-executive Directors individually and collectively to account for the performance of the Board whilst representing the interests of STHFT's members.

The Council of Governors collectively has responsibility for supporting STHFT in taking account of the views of its members when developing forward plans and services. Our Governors were engaged with the formation of STHFT's operational plan for 2023/24.

Other statutory duties of the Council of Governors include:

- > Appointment and removal of the Chairman and other Non-executive Directors
- > Approving the appointment of the Chief Executive
- > Deciding the remuneration of the Chairman and Non-executive Directors
- > Appointment and removal of STHFT's External Auditors
- Receiving STHFT's Annual Report and Annual Accounts
- As necessary make recommendations and/or approving revisions to STHFT's Constitution
- > Approval of significant transactions
- Approval of any application by the Foundation Trust to enter into a merger, acquisition, separation or dissolution
- > Review of STHFT's membership and engagement arrangements

There were a number of changes to the Council of Governors during 2022/23 including elections that were held. Details of the composition and changes that occurred are described in the following table:

Governor	Constituency	Term of Office	Number of Terms	Term due to end/ended	Council of Governor Meeting Attendanc e
Public Elected Govern	nors				1
Rebecca Hodgson	Middlesbrough	3 years	3	November 2025	5/6 83%

# **Council of Governor Meetings**

From 1 April 2022, the Council of Governors met on 6 occasions all held in public with a small element of private business.

- > 17 May 2022
- ➢ 19 July 2022
- > 20 September 2022
- 15 November 2022
- 17 January 2023
- ➢ 21 March 2023

### **Council of Governor Committees**

The Council of Governors delegates some of its powers to Committees of Governors and these matters are described within STHFT's Constitution which includes the Nomination Committee. Further details on the workings of the Nomination Committee can be found within the Remuneration Report. The Council of Governors established other groups including the Membership and Engagement Committee as mentioned previously in this section of the report, Annual Operating Plan Group, the Constitution Working Group and Quality Account Group,.

### **Governor training and development**

During the year Governors have been provided with access to a range of training and development opportunities to further support them in their role. These included inductions and learning and educational sessions held prior to Council of Governor meetings.

There are a number of ways members of the Trust and members of the public can communicate with the Council of Governors:

Telephone: 01642 854151

Email: <a href="mailto:stees.foundation.trust@nhs.net">stees.foundation.trust@nhs.net</a>

Write to your Governor at: Membership Office South Tees Hospitals NHS Foundation Trust The Murray Building James Cook University Hospital Marton Road Middlesbrough TS4 3BW

### The Board of Directors relationship with the Council of Governors

The Board of Directors and Council of Governors seek to work together effectively in their respective roles. During the year, the Lead Governor has worked closely with the Chairman and Company Secretary to review all relevant issues which are taken into consideration to produce agendas for meetings of the Council of Governors. The Non-Executive Directors are invited to attend all meetings and have started to take a lead in providing assurance to the Council of Governors on the work of the Trust. The Managing Director, Chief Operating Officer, Head of Financial Governance and Head of Governance & Company Secretary have been in attendance.

The Trust's Governors are encouraged to attend the Board meetings held in public to gain a broader understanding of discussion taking place at Board level, to observe the decision-making processes and to understand how Non-Executive Directors challenge and support Executive Directors.

### **Declaration of Interests of the Council of Governors**

All Governors are required to comply with the Council of Governors Code of Conduct which includes a requirement to declare any interests that may result in a potential conflict in their role as Governor of STHFT. At every meeting of the Council of Governors there is a standing agenda item which requires Governors to make known any interest in relation to agenda items and any changes to their declared interests. The Register of Governors' interests is held by the Company Secretary and is available for public inspection via the following address:

Membership Office, South Tees Hospitals NHS Foundation Trust The Murray Building, The James Cook University Hospital, Marton Road, Middlesbrough, TS4 3BW

#### **Nomination Committee**

The Nomination Committee consists of public, staff and governors. The Committee is chaired by the Trust Chair, with the exception of instances in which the appointment and performance of the Chair are to be discussed.

The Senior Independent Director is invited to the Committee to provide support and advice along with the Company Secretary. At times when the Chairman's terms of office or performance appraisal is being considered the Chair would withdraw from the meeting.

The Committee is responsible for taking forward recommendations to the Council of Governors concerning the appointment or re-appointment of the Chairman and Non-Executive Directors prior to the conclusion of their terms of office.

In making a recommendation, the Committee reviews each individual's annual review documentation to consider how they have performed as a Non-Executive Director and on the knowledge, skills and experience that they contribute to the Board of Directors. As part of this process, the Committee monitors the collective performance of the Board of Directors and considers the balance between the need for continuity, and the need to progressively refresh the Trust Board as advised within the NHS Foundation Trust Code of Governance.

In compliance with the code, the Non-executive Directors were subject to a formal rigorous review which included the following elements:

- A review of the appraisal documentation for the previous 12 months
- Confirmation from the Chair that he considers the Non-executive Directors to be independent or the mitigating actions to ensure the effectiveness of the Board is not compromised
- Review of the skills mix of the Board of Directors

At the end of March 2023 two Non-executive Directors have resigned from their post; Mr Jennings and Ms Reape both for personal reasons.

The Committee met on four occasions during the period of the 1 April 2022 to 31 March 2023 to address the performance, appointment and re-appointment of the Non-executive Directors.

Members		Total number attended	% attendance
Ms D Reape	Non-executive Director & SID	2/2	100%
Mr J Broughton	Staff Governor	1/1	100%
Mr M Holmes	Public Governor	3/3	100%
Mr P Crawshaw	Appointed Governor	2/4	50%
Mrs A Seward	Lead Governor	4/4	100%
Mr S Bell	Staff Governor	2/3	67%
Ms J Crampton	Public Governor	4/4	100%
Ms R Hodgson	Public Governor	4/4	100%
Mr D Hall	Governor	1/1	100%
Professor D Bell	Chairman	4/4	100%
Ms Z Mian	Governor	3/3	100%
Ms A Burns	Non Executive Director and SID (from February 2023)	0/1	0%

During 2022/23 the Council of Governors through the Nomination Committee agreed and had oversight on the following:

- Agreed the salary for Associate Non-Executive Directors
- Agreed the temporary appointment of Mr Jennings as Vice Chair
- Agreed the appointment of Mr Carter Ferris as Vice Chair to run concurrently with one-year fixed term extension
- Agreed the extension for one-year fixed term Mr Carter Farris
- Received a report on the Non-executive Director appraisals from the Vice Chair
- Received a report on the Chair's appraisal from the SID
- Reviewed the diversity of the board
- Appointed Ms Burns as Senior Independent Director
- Agreed the terms of office and remuneration for the Non-Executive directors
- Considered the succession plan for the independent members of the Board including the Chair
- Reviewed the terms of reference and annual cycle of business
- Agreed to use an external search consultancy in the appointment of non-executive directors
- Recommended the appointment of new non executive and associate non executive directors to the Council of Governors

### **Service Contracts**

Non-Executive Directors serve for three-year terms of office and serve a maximum of six years subject to satisfactory performance (with additional years approved subject to satisfactory performance on an annual basis).

The Council of Governors consider and set terms of office for Non-executive Directors beyond that to meet the needs of STHFT whilst taking into account NHS England's guidance. Further details on each of the Non-Executive Directors can be found in the Director's Report within this Annual Report.

### NHS England's Well Led Framework

The Trust Board development programme sets out the process by which it will assess itself against the NHS Improvement's well led framework as part of the Trust's journey of improvement. The Board has carried out self-review against the Well Led Framework in December 2019. An action plan was developed and work continues to deliver the outcomes agreed by the Board. The plan is a key aspect of the improvement plan for the Trust.

During 2022/23 the Trust received ongoing quality monitoring and regulatory oversight from the ICB and CQC with regular quality review groups and engagement meetings taking place throughout the year.

The CQC undertook a well led inspection of the Trust in January 2023 and the rating was uplifted from 'Requires Improvement' to 'Good'.

### Statutory statement required within the Directors Report

South Tees Hospitals NHS Foundation Trust has complied with the cost allocation and charging requirements set out in the HM Treasury and Office of Public Sector Information guidance.

A statement describing adoption of the Better Practice Code is included within the Annual Report. Section 43(2A) of the NHS Act 2006 (as amended by the Health and Social Care Act 2012) requires that income from the provision of goods and services for the purposes of the health service in England must be greater than its income for the provision of goods and services for any other purpose. The Trust can confirm it has met these requirements. Note 3 to the accounts confirm that the Trust does not have income from fees and charges where the full cost exceeds £1 million.

All Directors of the Trust have undertaken to abide by the provisions of the Code of Conduct for Board level Directors; this includes ensuring that, at the time that this Annual Report is approved:

- So far as each Director is aware, there is no relevant audit information of which the NHS Foundation Trust's auditor is unaware; and
- Each Director has taken all the steps that they ought to have taken as a Director in order to make themselves aware of any relevant audit information and to establish that the NHS Foundation Trust's auditor is aware of that information.

The provisions of the Code of Conduct also require each Director to confirm, they have undertaken all the steps that they ought to have taken as a Director in order to do the things mentioned above and:

- Made such enquiries of their fellow Directors and of the company's auditors for that purpose; and
- Taken such other steps (if any) for that purpose, as are required by their duty as a Director of the company to exercise reasonable care, skill and diligence.

# **Annual Remuneration Report**

# Annual Statement on Remuneration

We present on behalf of the Board of Directors' Remuneration Committee the Trust's Remuneration Report for the financial year ending on 31st March 2023. The Remuneration Committee is a committee of the Board and is responsible for the recruitment, succession planning and remuneration of the Executive Directors and other Directors.

In accordance with the requirements of the HM Treasury Financial Reporting Manual (FReM) and NHS Improvement, we have divided this Remuneration Report into the following parts:

- An annual statement on remuneration from the Remuneration Committee;
- Senior Managers' Remuneration Policy; and
- Annual Report on Remuneration.

The process the Trust uses for assessing the performance of its Chief Executive and Directors is determined by the Remuneration Committee and is reviewed annually to ensure it is fit for

purpose and meets current good practice for Board Directors. The Trust's policy on pay is that it will, for all staff groups, endorse any national proposals for pay, subject to the Trust being able to afford to pay any changes/increases.

The Trust Remuneration Committee aims to ensure that Executive Directors and Directors remuneration is set appropriately. The Committee takes into account relevant market conditions to ensure Executive Directors and Directors are remunerated appropriately and that their pay is reasonable and comparable to other Executive Director and Director pay.

The Committee was assured that salaries above the threshold displayed within the Remuneration table within the Accountability Report are reasonable and comparable to other Executive Director and Director pay.

The Chief Executive and Executive Directors receive a fixed salary which is reviewed annually and determined by independent benchmarking against NHS organisations throughout the country with the use of NHS Provider benchmarking information, NHS Annual Reports and Accounts and knowledge of job descriptions, person specifications and market pay.

Executive Directors and Directors are substantive employees and their contacts can be terminated by either party giving notice of three months.

For the purpose of this Remuneration Report only voting members of the Board are considered as 'senior managers'.

Due regard is also given to the diversity and complexity of the roles undertaken by the Directors when reviewing and benchmarking pay against comparators. Any pay changes/increases will always be subject to formal review of both the individual Director's performance and the Trust's performance, taking cognisance of the national framework for pay.

The Remuneration Committee considers the key business objectives as set out in the Trust Strategic objectives and Improvement Plan allocated to each Director through the appraisal process. Performance is closely monitored and discussed through both an annual and ongoing appraisal process. The Chief Executive and Managing Director take a joint lead on the evaluation of Directors and the Chairman takes the lead on the Chief Executive's performance.

During 2022/23, appraisals were held with the Chief Executive and Managing Director and each Director and all senior managers' remuneration is subject to satisfactory performance.

## Major Decisions on Remuneration in 2022/23:

- The Remuneration Committee received a report on the Chief Executive's appraisal
- The Remuneration Committee received a report on the performance and appraisal of the Executive Directors and Director team
- The Remuneration Committee approved the extension of the interim Director of Clinical Development
- The Remuneration Committee approved the extension of the interim Director of Strategy & Partnerships
- The Remuneration Committee received benchmarking information on the salaries for Very Senior Managers and Band 9 Directors
- The Remuneration Committee agreed a one-off bonus of £250 for Executive Directors and Directors in line with the offer to staff

- The Remuneration Committee agreed to a further secondment extension for the Director of Transformation
- The Remuneration Committee approved the remuneration of the Director of Estates, Facilities and Capital Planning
- The Remuneration Committee considered a report on succession planning for the Executive Director and Band 9 Directors
- The Remuneration Committee agreed a voluntary severance package for the Director of Director of Transformation

The Remuneration Committee fulfil their responsibilities and report to the Board of Directors.

Signed:

N load Sianed:

Sue Page CBE Chief Executive & Accounting Officer

**Professor Derek Bell OBE** Joint Chair

Date: 25.07.23

#### **Senior Manager Remuneration and Benefits**

The Remuneration Committee is committed to ensuring the Trust is able to offer proportionate and fair remuneration packages, reflective of the responsibility of working in a large and complex environment and to promote the long-term sustainable success of the Trust by attracting, recruiting and retaining high calibre staff in a competitive marketplace.

It considers the prevailing market conditions, benchmarks pay and employment conditions against appropriate peer, national and regional comparators and the Trust workforce. When appointing Directors and Executive Directors to the Trust, the Remuneration Committee aligns with the Trust's strategy to deliver Workforce Race Equality standards, Workforce Disability Equality Standards and increase inclusive leadership. The Trust values and promotes diversity and is committed to equality of opportunity for all. The Trust believes that the best boards are those that reflect the communities they serve, and applications are particularly welcomed from women, people from the local black and minority ethnic communities, and disabled people who we know are under-represented in senior manager roles.

The Remuneration Committee always considers the pay and terms and conditions of service of all Trust employees when making any decisions relating to the Executive Directors' pay and conditions. This is to ensure that levels of responsibility and experience are reflected appropriately, take account of pay surveys conducted by NHS Providers, as well as comparisons with other North East trusts and consider any national inflationary pay awards awarded to agenda for change/medical and dental staff.

NHS England outlined recommendations for the 2022/23 annual pay increase for very senior managers in September 2022. Following a recommendation from the Senior Leadership Team, the Remuneration Committee agreed to award an increase of 3.0% for all very senior managers backdated to 1 April 2022.

Details of Directors' remuneration and pension entitlements for the year ending 31 March 2023 are published in this Remuneration Report and the Annual Accounts section.

The authority and responsibility for controlling major activities is retained by the statutory Board of Directors who have voting rights. This includes the voting Executive and voting Non-executive Directors (including the Chairman).

Pension arrangements for the Chief Executive and Executive Directors are in accordance with reference to NHS Pension Scheme, the Accounting Policies for Pensions and relevant benefits are set out in the following tables:

There are no components to senior manager salaries other than those disclosed within the tables in this report. Total remuneration includes salary, non–consolidated performance-related pay and benefits in kind. It does not include severance payments, employer pension contributions and the cash equivalent transfer value of pensions for 2022/23. There have been no special contractual compensation provisions attached to the early termination of a senior manager's contract of employment and there has been no payment for compensation for loss of office paid or receivable under the terms of an approved compensation scheme.

#### Service contract obligations

Director and Executive Director service contracts do not include obligations on the Foundation Trust which could give rise to or impact on remuneration payments or payments for loss of office. Trust does not make payments for loss of office outside the standard contract terms included in the employment contracts of senior managers.

#### Policy on payment for loss of office

The Members of the Executive Team are appointed on permanent contracts with a notice period of three months for them to serve and a period of three months for the Trust to serve.

The Chief Medical Officer's salary is in accordance with the terms and conditions of the National Health Service Consultant Contract plus a responsibility allowance payable for the duration of office which is three years.

Early termination by reason of redundancy is in accordance with the provision of the NHS redundancy arrangements and in accordance with the NHS pension scheme. Employees above the minimum retirement age that request termination by reason of early retirement are subject to the normal provisions of the NHS pension scheme.

Element	Link to Strategy	Operation	Maximum	Changes
Base salary Taxable benefits Annual performance related bonuses	To set a level of reward for performing the core role. (8) David Chadwick resigned as Medical Director and stepped down as voting board director on 31 August 2020

(9) Adrian Clements resigned as Medical Director on 30 October 2020 and stepped down as voting board director on 30 October 2020

(10) Sath Nag Resigned as Medical Director and stepped down as voting director on 31 January 2021

(11) Deirdre Fowler left the Trust on 15 January 2021.

The figures for Taxable Benefits relate to lease cars and accommodation costs

\* In accordance with NHS England's NHS Foundation Trust Annual Reporting Manual s2.39, disclosure is now shown where one or more senior managers are paid more than £150,000. This is the threshold used in the Civil Service for approval by the Chief Secretary to the Treasury, as set out in guidance issued by the Cabinet Office and is considered a suitable benchmark above which NHS foundation trusts should disclose. Every salary approved by the remuneration committee has been appropriately externally benchmarked and salary levels set to ensure we are attracting the right skills and competencies.

\*\* In accordance with NHS England's NHS Foundation Trust Annual Reporting Manual s2.50, where the calculations for Pension-Related Benefits result in a negative value the result should be reported as zero.

The information included above for pension benefits has been supplied by NHS Pensions.

#### **Pension Information**

#### **Notes to Senior Managers remuneration and Pension benefits** (subject to audit)

The figures below are for the 12-month period from 1 April 2022 to 31 March 2023:

	Real increase in pension at pension age	Real increase to pension lump sum at pension age	Total accrued pension at pension age at 31 March 2023		Cash equivalent transfer value at 1 April 2022	in cash	Cash equivalent transfer value at 31 March 2023	Employer's contribution to stakeholder pension
Executive Directors	Bands of £2,500	Bands of £2,500	Bands of £5,000	Bands of £5,000	£000s	£000s	£000s	£000s
Robert Harrison Managing Director	2.5-5	0	45-50	70-75	592	64	656	0
<b>Chris Hand</b> Chief Finance Officer	0-2.5	0	40-45	80-85	604	54	658	0
Hilary Lloyd Chief Nurse	2.5-5	0	60-65	170-175	1,256	106	1,362	0

The comparative figures for the 12-month period from 1 April 2021 to 31 March 2022 are as follows:

	Real increase in pension at pension age	Real increase to pension lump sum at pension age	Total accrued pension at pension age at 31 March 2022		Cash equivalent transfer value at 1 April 2021	in cash	Cash equivalent transfer value at 31 March 2022	Employer's contribution to stakeholder pension
Executive Directors	Bands of £2,500	Bands of £2,500	Bands of £5,000	Bands of £5,000	£000s	£000s	£000s	£000s
Robert Harrison Managing Director	5-7.5	5-7.5	40-45	70-75	510	56	592	0
<b>Chris Hand</b> Chief Finance Officer	10-12.5	25-27.5	35-40	80-85	406	175	604	0
<b>Hilary Lloyd</b> Director of Nursing	10-12.5	30-32.5	55-60	165-170	989	242	1,256	0

Note: In the tables above, the benefits and related CETVs do not allow for any potential future adjustment arising from the McCloud judgment.

#### Notes to Senior Managers remuneration and Pension benefits

A Cash Equivalent Transfer (CETV) is the actuarially assessed capital value of the pension scheme benefits accrued by a member at a particular point in time. The benefits valued are the member's accrued benefits and any contingent spouse's pension payable from the scheme. A CETV is a payment made by a pension scheme, or arrangement to secure pension benefits in another pension scheme or arrangement when the member leaves a scheme and chooses to transfer the benefits accrued in their former scheme. The pension figures shown

relate to the benefits that the individual has accrued as a consequence of their total membership of the pension scheme, not just their service in a senior capacity to which the disclosure applies.

The CETV figures, and from 2004-2005 the other pension details, include the value of any pension benefits in another scheme or arrangement which the individual has transferred to the NHS pension scheme.

CETV figures are calculated using the guidance on discount rates for calculating unfunded public service pension contribution rates that was extant at 31 March 2023. HM Treasury published updated guidance on 27 April 2023; this guidance will be used in the calculation of 2023-24 CETV figures.

## Fair Pay Multiple (subject to audit)

As an NHS Foundation Trust, the Trust is required to disclose the relationship between the remuneration of the highest paid Executive Director in their organisation and the lower quartile, median and upper quartile remuneration of the organisation's workforce (this excludes one-off severance payments and pension related benefits). For this Trust, Executive Directors are deemed those with voting rights on the Board, as disclosed in the salary table above. In 2022/23 the highest paid Director in the Trust is the Chief Executive (in 2021/22 the highest paid Director was also the Chief Executive).

The banded remuneration of the highest paid Director at the Trust in 2022/23 was £247,500 (2021/22 £237,500). This was 7.1 times (2021/22 7.5 times) the median remuneration of the workforce, which was £34,868 (2021/22 £31,593).

This exercise has included all staff employed by the Trust during the financial period, regardless of whether they were still employed at 31 March 2023. The remuneration figures used are based on Trust employees including locum staff, the Trust's in-house nurse, clerical bank staff and excludes external agency staff.

In 2022/23, five employees received remuneration in excess of the highest paid Director (three employees in 2021/22). Remuneration ranged from £22,330 to £330,287 (2021/22 £18,545 to £305,148). The percentage change in average employee remuneration (based on total for all employees on an annualised basis divided by full time equivalent number of employees) between years is 15.0%. Total remuneration includes salary, non-consolidated performance-related pay, benefits in kind but not severance payments. It does not include employer pension contributions and the cash equivalent transfer value of pensions. The starting point for the ranges for the financial periods is based on the minimum agenda for change pay scales.

The remuneration of the employee at the 25th percentile, median and 75th percentile is set out below. The pay ratio shows the relationship between the total pay and benefits of the highest paid director (excluding pension benefits) and each point in the remuneration range for the organisation's workforce.

2022/23			2021/22		
25th	Median	75th	25th	Median	75th
percentile		percentile	percentile		percentile

Total pay and benefits excluding pension benefits	26,449	34,868	44,537	23,071	31,593	41,617
Banded remuneration of highest paid director	247,500	247,500	247,500	237.500	237,500	237,500
Ratio of total pay and benefits and the mid- point of the banded remuneration of the highest paid director	9.4	7.1	5.6	10.3	7.5	5.7

#### Expenditure on consultancy

In 2022/23, expenditure on consultancy was £1.608 million (2021/22 £0.888 million). Consultancy expenditure in the year related mainly to support in developing and delivering the Trust's Financial Improvement Programme with support from NHS England.

#### Staff exit packages

In 2022/23, the Trust agreed an exit package with 2 members of staff (there were 25 instances in 2021/22) which cost £0.143 million. Further information to support the exit packages is included in Note 5.3 and Note 5.4 of the Financial Statements.

#### **Governors' expenses**

In accordance with STHFT's Constitution Governors are eligible to claim expenses for travel at rates determined by STHFT. Out of the Council of Governor membership there were seven Governors who claimed expenses which totalled £405.30.

## **Directors' expenses**

In 2022/23, expenses paid to those holding the office of Director at the Trust totalled £15,004. All costs paid related to the reimbursement of travel, subsistence costs and course expenses. Details of remuneration and benefits in kind can be found within the remuneration table.

#### Analysis of staff costs (subject to audit)

Details of the costs of our workforce are available within Note 5 of the Financial Statements. The note includes information to support employee expenses and details of the monthly average of people employed by the Trust.

#### **Off-payroll engagements**

Executive Director approval is required for all off-payroll engagements and STHFT reports to NHS England as required in line with national requirements. Board approval via recommendations from the Remuneration Committee is required by any off-payroll Board member engagement.

Highly paid off-payroll worker engagements as at 31 March 2023 earning £245 per day or greater:

Number of existing engagements as of 31 March 2023 of which:	1
Number that have existed for less than one year at time of reporting	1
Number that have existed for between one and two years at time of reporting	0
Number that have existed for between two and three years at time of reporting	0
Number that have existed for between three and four years at time of reporting	0
Number that have existed for four or more years at time of reporting	0

All highly paid off-payroll workers engaged at any point during the year ended 31 March 2023 earning £245 per day or greater:	ır
Number of off-payroll workers engaged during the year ended 31 March 2023:	2
Of which:	
Not subject to-off-payroll legislation	0
Subject to off-payroll legislation and determined as in-scope of IR35	0
Subject to off-payroll legislation and determined as out-of-scope of IR35	2
Number of engagements reassessed for compliance or assurance purposes during the year	0
Of which: number of engagements that saw a change to IR35 status following review	0

Any off-payroll engagements of Board members, and/or, senior official with significant financial responsibility, between 1 April 2022 and 31 M 2023:		
Number of off-payroll engagements of Board members, and/or senior officials with significant financial responsibility, during the financial year	0	
Number of individuals that have been deemed 'Board members and/or senior officials with significant financial responsibility' during the financial year. This figure must include both off-payroll and on- payroll engagements	0	

## **The Audit Committee**

The membership of the audit & risk committee consists of three independent directors. The Board should satisfy itself that the membership of the committee has sufficient skills to discharge its responsibilities effectively and ensure that at least one member of the committee has recent and relevant financial experience.

The committee was chaired by Mr David Jennings until August 2022. Mr Readshaw has been the chair of the committee since September 2022.

There were six meetings held during 2022/23. Meetings were held virtually in line with the social distancing requirements of the pandemic and face to face as restrictions were lifted.

Non-executive Directors	Total number attended	% attendance
Mr R Carter-Ferris	3/3	100%

Mr D Jennings	3/3	100%
Mr K Readshaw	2/3	67%
Ms M Davidson	3/3	100%
Ms A Gerner	2/3	67%
Ms A Burns	1/1	100%

The Committee remains responsible for providing the Board with advice and recommendations on matters which include the effectiveness of the framework of controls in the Trust, the adequacy of the arrangements for managing risk and how they are implemented, the adequacy of the plans of our auditors and how they perform against them, the impact of changes in accounting policy and the Committee's review of the Annual Accounts.

The Committee ensured a focus on the effectiveness of arrangements in place for counter fraud, anti-bribery and corruption to ensure that these met the NHS Counter Fraud Authority's requirements standards.

The Committee met its responsibilities during 2022/23 by:

- Reviewing the Board Assurance Framework
- Reviewing risk and internal control-related disclosures, such as the Annual Governance Statement
- Reviewing the work and findings of Internal Audit, including the Internal Audit annual plan
- Reviewing the work and findings of External Audit
- Reviewing the work and findings of the Local Counter Fraud Officer
- Reviewing the process by which clinical audit is undertaken in the organisation
- Reviewing the process by which staff are able to speak up in the organisation
- Monitoring the extent to which our external auditors undertake non-audit work having reference to the Auditors Guidance Note 1 (AGN01) 'General Guidance Supporting Local Audit'
- Receiving assurance that the organisation is compliant with the NHS England EPRR core standards and has an effective business continuity process in place
- Reviewing the 2022/23 Financial Statements and Annual Report, prior to submission to the Board and NHS England
- Seeking assurance that the financial statements have been appropriately compiled on a going concern basis
- Reviewing and approving the Trust's Standing Financial Instructions and Scheme of
- Delegation
- Receiving assurance regarding PFI lifecycle
- Reviewing Trust policies such as standing financial instructions, accounting policies and BAF standard operating procedure
- Approving the Register of Interests for the Trust Board of Directors
- Seeking assurance in relation to the Trust's compliance with regulatory changes
- Reviewed the schedule of losses and compensations, the annual fraud report and provided assurance to the Board following each of its meetings

The Committee is content that the objectivity and independence of the auditor was not compromised by any of these additional assignments and that these services are allowed services under AGN01.

A review of the Committee effectiveness was undertaken in May 2023, based on a survey of members and attendees. Members were satisfied with the way the Committee was operating and a small number of considerations are identified in the report.

In the review of internal audit and management assurance reports, Audit & Risk Committee identified three High, 13 Medium and ten Low risk rated findings to improve weaknesses in the design of controls and/or operating effectiveness. Three High risk rated findings have been identified across the reviews carried out during the year. These have been summarised in the annual governance statement.

## **Charitable Funds Committee**

The Charitable Funds Committee has continued to meet during 2022/23 for the on-going management of charitable funds on behalf of the Corporate Trustees.

## NHS Trust Code of Governance

South Tees Hospitals NHS Foundation Trust has applied the principles of the NHS Foundation Trust Code of Governance on a comply or explain basis. The NHS Foundation Trust Code of Governance, most recently revised in July 2014, is based on the principles of the UK Corporate Governance Code issued in 2012.

There are other disclosures and statements (mandatory disclosures) that we are required to make, even where we are fully compliant. The mandatory disclosures have already been made within the main text of the Annual Report.

NHS Foundation Trusts are required to provide (within their Annual Report) a specific set of disclosures in relation to the provisions within Schedule A of the Code of Governance. We are compliant with these provisions and in compliance with the Code.

## **NHS System Oversight Framework**

## System Oversight Framework

NHS England NHS System Oversight Framework provides the framework for overseeing systems including providers and identifying potential support needs. The framework looks at five national themes:

- quality of care, access and outcomes
- preventing ill health and reducing inequalities
- finance and use of resources
- people
- leadership and capability.

Based on information from these themes, providers are segmented from 1 to 4, where '4' reflects providers receiving the most support, and '1' reflects providers with maximum autonomy. A foundation trust will only be in segments 3 or 4 where it has been found to be in breach or suspected breach of its licence.

## Segmentation

Across the themes of the SOF (quality of care, finance and use of resources, operational performance, strategic change, leadership and improvement capability) the Trust is placed in segment 3, mandated support for significant concerns, under the NHSE Regulatory Approach (Support Regime). The Trust is currently gaining external support on emergency care pathways and cost improvement and transformation.

# **Staff Report**

Information relating to workforce statistics (staff sickness) can also be found at <u>https://digital.nhs.uk/data-and-information/publications/statistical/nhs-workforce-statistics</u>

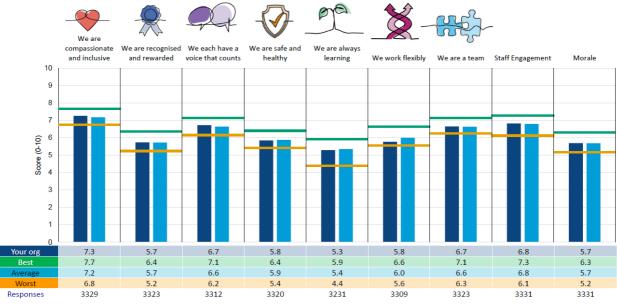

#### National NHS Staff Survey 2022

The NHS annual staff survey was carried out in Autumn 2022. The survey mode was mixed, and the sample type was a census with a response rate of 35% (3334 members of staff).

The questions in the NHS Staff Survey are aligned to the People Promise (from 2021 onwards). This sets out, in the words of NHS staff, the things that would most improve their working experience, and is made up of seven elements:

The 2022 results for the above seven areas are as follows and include the results for additional themes of staff engagement and morale.

We are Compassionate and inclusive

Key indicators in the section relate to care of our patients, raising concerns and recommending the Trust as a place to work and for this indicator the Trust benchmarks above the national average. The sub-score trends indicate comparable scores to 2021, with an improved score in compassionate leadership. There has been a reduction in the score for compassionate culture which relates, for example, to feeling that roles make a difference to patients and service users; recommending the organisation as a place to receive care or work. On further review of the data, although percentage responses have decreased in these areas, the number of positive responses from staff has increased from 2021 to 2022.

#### We are recognised and rewarded

This theme includes recognition for good work, feeling valued and satisfaction with level of pay and for this indicator we benchmark the same as the national average. Our results are lower than last year, with the most significant reduction relating to satisfaction with levels of pay. More staff state that the people they work with show appreciation to one another.

#### We each have a voice that counts

This theme explores how colleagues feel about their work environment with opportunities to use initiative, are trusted to do their role and can make suggestions. For this indicator we benchmark above the national average. The 2022 NHS staff survey results show a decrease in percentage responses but an increase in the number of staff feeling secure to raise concerns and confident that the organisation would address concerns.

#### We are safe and healthy

This theme covers staffing, health and wellbeing and bullying and violence. For this indicator we benchmark marginally below the national average, which is related to staffing, resources and time pressures, and action on health and wellbeing. Fewer staff state that they feel burntout and that their work is emotionally exhausting. In the last 12 months, fewer staff have felt unwell as a result of work-related stress. Fewer staff have personally experienced physical violence from patients, service users or members of the public.

#### We are always learning

This theme focuses on development opportunities and appraisals. For this indicator we have shown a significantly higher result from 2021 to 2022. There has been an increase in the organisational score for completion of appraisals and helping to agree clear objectives. There is also an improvement in opportunities for staff to develop their career in the organisation and opportunities to improve knowledge and skills and access the right learning and development opportunities when needed. More staff also feel supported to develop their potential.

#### We work flexibly

This theme relates to home life balance and flexible working. For this indicator we benchmark below the national average. However, the 2022 and 2021 scores for this area are comparable, with more staff saying that the organisation is committed to helping them balance their work and home life and that they can approach their immediate manager to talk openly about flexible working. This area has been an organisational focus, which includes the development of a Flexible Working Policy in partnership with Staff Side Colleagues, (new policy live in January 2023). The Policy includes helpful toolkits from NHS England, to support conversations between managers and staff.

This theme looks at the support, respect and encouragement from line managers and team working. For this theme the Trust is above the national average and for both of the main areas that contribute to this score (teams working and line management), the organisation is the comparable to the national average. More staff state that their team has a shared set of objectives and regularly meets to discuss the team's effectiveness. More staff state that their manager gives them clear feedback on their work. Although a decrease in the percentage, more staff in 2022 state that their manager takes a positive interest in their health and wellbeing.

#### Morale

The theme covered in this area relates to colleagues' views on leaving the organisation, materials, staffing and relationships. For this indicator we benchmark in line with the national average. We have seen a decrease in colleagues stating that they will probably look for a job at a new organisation in the next 12 months.

## Staff engagement

This theme looks at motivation, enthusiasm and ability for staff to make suggestions and improvements in their role. More staff feel able to make suggestions to improve the work of their team / department and make improvements happen in their area of work. In relation to advocacy although there has been a reduction in the percentage scores, there has been improvements in the numbers of staff providing positive responses.

## Staff Engagement – Creating a Sense of Belonging

We want to continue to make the Trust a great place to work and encourage people to develop their career within the organisation. It is important for our people to know that we listen and take action on suggestions for improvement.

Our People Plan for 2020/23 articulates how we will deliver on the national People Plan priorities by improving the working experience of our people through five key strategic enablers:

- Addressing workforce shortages
- Improving learning and leadership culture
- Embedding equality, diversity and inclusion
- Creating a sense Belonging
- Improve health and wellbeing

The following are examples of activities where the Trust has actively sort to engage with its workforce to gain insight and feedback to improve the workplace environment making the Trust a place whereby staff feel involved.

#### Staff Engagement Network

The Staff Engagement Network has been in place for 24 months.

The Staff Engagement Network which has been in place for 24 months and has been involved in the development of the following initiatives:

- Review and update of the Staff Discussion and Appraisal document.
- Development of a reward and recognition strategy and policy
- Review on the induction and on-boarding process
- Review and development of the flexible working policy, including mangers toolkits and discussion documents
- Implementation and delivery of the Trust values, including introduction of values based recruitment

The network will continue to meet bi-monthly. They have identified four engagement pillars and are currently looking at initiatives that support the engagement strands:

#### Staff Recognition

The Trust has continued to develop our South Tees Appreciation Reports recognise excellence and celebrate success. These are presented by our Non-Executive Director colleagues and published on our social media. In 2022/23 there has been a total of 91 STAR awards presented to both teams and colleagues.

In partnership with Staff Side Colleagues, the Engagement Network have developed a staff reward strategy which will form the basis of a Trust Reward and Recognition Policy. The strategy includes recognition for:

- Education, training and development
- Recognition for service from one year to 25 years
- Long Service Award which is currently awarded upon 25 years' service. In the previous 12 months 80 staff were presented with an award for long service.

## Appraisals

A new values-based appraisal that was first implemented in May 2021. Following staff survey feedback, further improvements to the appraisal process and document were made in July 2022. Key changes were to encourage the appraisal process to be a discussion between the manager and staff member. The appraisal discussion document has the Trust values at its core and includes a health and wellbeing discussion a focus on work life balance, as well as a review of objectives and performance and development, in line with the Trust values.

A module on appraisal training for line managers has been redesigned during 2022 and is delivered via the Trust Management Essentials Programme. In addition, appraisal training for staff has also been developed and delivered during 2022 to compliment the line manager training and to maximise the value gained through undertaking an effective appraisal.

#### Value Based Recruitment

Values Based Recruitment is an approach to help attract and select employees whose personal values and behaviours align with the values of the Trust. All successful candidates are provided with the opportunity to have a voice, via a recruitment questionnaire which prompts them to be honest about their recruitment experience. Anyone who wishes to express any comments regarding the recruitment process are provided with direct access to the Recruitment Manager. To date over 500 interview panels have included value based recruitment questions.

## **Raising Concerns and Issues**

The HR team, and Freedom to Speak Up Team, in partnership with Staff Side, have continued to develop their partnership working approach by meeting on a monthly basis to triangulate information and develop appropriate strategies.

We operate a culture of continuous learning and development and as part of this culture, and in order to improve HR policy and practice, the HR team have introduced an ER questionnaire. The questionnaire is sent to all colleagues who have been involved in an employee relations process (excluding any dismissals). To date, 44 questionnaires have been issued with the majority of those returned expressing a positive experience.

## Health and Wellbeing

Good health and wellbeing of our people is a key focus, and we want to ensure that we provide support for psychological, physical, personal and financial wellbeing.

We want a positive wellbeing culture with initiatives that are relevant to our colleagues both now and in the future. We promote our health and wellbeing and engagement initiatives to ensure all colleagues are aware of what is available and that it is embedded across the whole Trust. We support colleagues to enable them to achieve good attendance and we have strengthened our focus specifically on psychological health awareness to address identified issues of concern.

The Trust health & wellbeing objectives are:

- Develop a positive workplace environment that supports health and wellbeing
- Ensure our policies and practices support health and wellbeing
- Support healthy body for all and ensuring healthy eating options are available
- Encourage a healthy mind and reduce stigma relating to mental health
- Promote and support financial wellbeing

#### **Better Health at Work Award**

In Dec 2022 the Trust were successful in gaining the Silver level of the Better Health at Work Award, overall feedback included:

"This is a strong submission from South Tees Hospitals NHS Foundation Trust - thank you to the team for delivering a conscientious and comprehensive assessment document, portfolio and more importantly, what is becoming a conscientious and comprehensive staff offer. It's brilliant to see the Trust actively progressing the health and wellbeing agenda."

#### Mindful Employer Charter

In February 2023 the Trust successfully regained the Mindful Employer Charter. Overall feedback included:

#### Supporting employee mental wellbeing

Your review evidenced a proactive approach to staff wellbeing, but with an understanding that additional support may sometimes be required. With a range of internal, external and individual resources available to staff, it was reassuring to see communication as a strong theme throughout both your 2021 and 2023 reviews. This includes monthly meetings for your Wellbeing Co-ordinators, allowing them to remain updated and provide peer support regarding challenging scenarios.

It was reassuring to read details of your holistic approach to supporting staff wellbeing. This includes Schwartz rounds, mindfulness drop-ins, a CBTI pilot and the 'How am I' toolkit. There are an almost limitless range of factors influencing our mental wellbeing, and while it's not an employer's role to 'fix' these for staff, managers will often be in a position to signpost to appropriate support.

#### Training

It was positive to read that you continue to provide a variety of mental health related training specifically for managers. This is in line with recommended best practice and helps to ensure consistency of approach across an organisation (World Health Organization, Mental Health at Work: Policy Brief, 2022).

Line managers are usually the initial point of contact for staff so have a crucial role to play in staff's experience of being supported by an organisation. Managers who are confident in having conversations with staff about their wellbeing and know how to respond appropriately can help to reduce distress and levels of absenteeism and presenteeism. This benefits the staff and the organisation."

## Embedding Health & Wellbeing

Health and Wellbeing is included within the updated Welcome Induction to new employees. This is a valuable opportunity to showcase how we can support employee's health and wellbeing. We have also embedded health and wellbeing conversations into our appraisal processes. This ensures that during appraisal discussions staff are able to discuss any health and wellbeing related issues and managers can then signpost staff to Health & Wellbeing support services.

## Psychological Wellbeing

We have seen a significant increase in demand from across our workforce for access to staff psychological support services especially counselling. Our Wellbeing Guardian, Staff Psychological Wellbeing Advisor and Staff Support Psychologist now also undertake monthly wellbeing walkabouts. During 2022/2023 wards and departments have continued to be visited by the non-executive lead for staff health and wellbeing, to ensure staff feel listened to and any concerns are noted and fed back at the Health and Wellbeing Operational Group for action.

Utilising charitable funds, the work on the introduction of three new 'Wellbeing Pods' which will be located at James Cook Hospital and the Friarage Hospital has commenced. The pods will provide staff with a dedicated space to take time out in a relaxing purposed built environment. There will also be a specific pod for staff to access wellbeing initiatives and psychological support.

## **Physical Wellbeing**

The Physiotherapy Service continues to experience a high demand on their services. 97% of staff with work related MSK issues felt that the service helped to keep them at work and avoid sickness absence and 76% of referrals for staff who were absent felt that the service helped them to return to work quicker.

We are committed to supporting physical wellbeing and have undertaken a wide range of Health & Wellbeing awareness raising campaigns that include interactive events and activities. The following are some examples of activities rolled out during 2022/23:

- World Run challenge
- Menopause awareness days
- Doctor bike clinics to encourage and support cycling
- Health & wellbeing roadshow
- Health checks "Know your numbers!"
- World suicide day
- Men's health week
- World cancer day
- Stress awareness month
- Sleep improvement course
- New start knew you

• Ovarian cancer awareness month

## **Financial Wellbeing**

Through partnership working with our staff side colleagues at the Joint Partnership Committee, an agreement has been reached to continue to provide support with the Trust Hardship Fund which is provided through the Trust's Charity and provision of Salary Advance through the Trust's finance department.

We are now working with 'The Money and Pensions Service' - an arm's-length body sponsored by the Department for Work and Pensions, with a joint commitment to ensuring that our colleagues have guidance and access to the information they need to make effective financial decisions over their lifetime, delivered across five core functions: Pension guidance, Debt advice, Money guidance, Consumer protection, strategy.

To ensure staff are aware of this service, we have updated our intranet page to provide a comprehensive range of financial wellbeing services which includes:

- National Debt Advice and Management Services
- Government help to save scheme
- Benefit calculators
- Credit score and report services
- Gambling support
- Childcare
- Financial wellbeing NHS website
- Pensions
- Benefits and discounts
- Travel

Work has also recommenced to pursue the introduction of a partnership with a credit union provider. The aim of this service will be to enable staff with the option of accessing a range of services that will assist with the management of personal debt, as well as educate and encourage staff to develop and improve their approach to saving to improve their financial wellbeing.

#### **Occupational Health Services**

On top of this amazing work our Occupational Health team have continued to provide normal business as usual activities including physiotherapy services, annual health campaigns and roll out of the flu vaccination. The team has utilised new and creative approaches to deliver their services including the rollout of wellbeing videos and access to online services.

## Embedding Equality, Diversity and Inclusion (EDI)

Through our equality, diversity and inclusion initiatives we continue to promote our values and behaviours and specifically to engender a sense of belonging for all by creating an environment where we value unique differences.

We strive to ensure our workforce is representative of the communities that we serve and recognise the contribution of all colleagues is supportive, fair and free from discrimination and ensure there is psychological safety for all.

The Trust Equality, Diversity and Inclusion objectives are:

- Ensure open and transparent opportunities for all Review people policies and procedures ٠
- •
- Create diverse and inclusive culture •
- To keep our colleagues safe and well at work •

# Staff Equality and Diversity Information 2023

Below is the current EDI data relating to the workforce at Year Ended 31-MAR-2023:

Gender	FTE	Headcount
Female	6715.90	7943
Male	1618.89	1847
Total	8334.80	9790

Ethnicity	FTE	Headcount
BME	891.20	1006
Not Stated	291.99	353
White	7151.62	8431
Total	8334.80	9790

Sexual Orientation	FTE	Headcount

Yes - Unspecified	69.95	82
Total	8334.80	9790

## **Reciprocal Mentorship programme**

We have worked in collaboration with the BAME (Black, Asian and Minority Ethnic) network to launch a Reciprocal Mentorship programme. Reciprocal Mentoring is a systemic intervention designed to enable change that leads to greater equity of outcomes across the whole organisation. In reciprocal mentoring the mentors are partners developing each other's ability to make significant improvements in equality.

Reciprocal mentoring is a mutually beneficial relationship where each participant learns from each other and improves their professional performance. They hold each other accountable and give each other encouragement and feedback on their goals.

Some key aims of the programme which will take 2 years to fully embed, are to create strong partnerships that enable a greater understanding of issues that affect colleagues from different ethnic backgrounds. The programme is looking to gain greater insight, which will then enable system change and improvements in equality for staff, patients and service users from across our communities.

We were the first Trust in our region to take part in the Reciprocal Mentoring Programme which is a systemic intervention designed to enable change that leads to greater equity of outcomes across the whole organisation. We established 23 mentoring partnerships between members of our BME workforce and senior leaders across the Trust.

As well as monthly individual meetings within reciprocal mentoring partnerships and following a series of quarterly group based engagement events three key areas of work to improve EDI for our BME workforce were identified. These were:

- Breaking the glass ceiling for BME staff with a targeted approach to improve equality
  of opportunity for BME nursing colleagues to successfully gain career progression
  through positive action.
- Improve support to BME staff prior to and during induction especially those staff joining the Trust through international recruitment opportunties.
- Gain greater insight and understanding the issues of discrimination faced by our BME staff.

## **Equality Delivery System (EDS)**

Overarching all of the EDI work within the Trust is the Public Sector Equality Duty which is delivered in the NHS through the Equality Delivery System (EDS), which supports the following three goals:

- 1) Commissioned or provided services
- 2) Workforce health and wellbeing
- 3) Inclusive leadership.

Work is currently underway to update the EDS assessment and a new governance structure has been developed to ensure that we are able to demonstrate through evidence based practice, how we are performing against the new EDS requirements which were launched in September 2022.

## **Gender Pay Gap Report**

This report details our headline pay gap figures as at 31 March 2022, a brief analysis of why we have a pay gap and an overview of our actions to close the gap. We are committed to ensuring that our pay practices are transparent, fair and equitable. The Trust has adopted and implemented national NHS pay schemes which have undergone an equality analysis.

Our mean gender pay gap is 29.4% and our median gender pay gap is 23% which is a marginal improvement of 3.8% for the same period last year. This analysis suggests that our pay gap is impacted by the highest (male) earners in the organisation.

The main reason that the gender pay gap is at an in-balance is due to the numbers of men and women across the entire workforce which is currently sat at 81% females versus 19% male. In the upper pay quartile we have 32% within this pay group who are male. The Medical Consultant workforce predominantly consists of men (70%) and Consultants are the highest paid group of staff - this difference is influencing the gender pay gap.

The progress made over the last year has resulted in an increase % of our female medical staff aged 21 - 45 and under is now 57% male in 2022 versus 43% of female Medical staff. Whereas medical staff aged 46 - +70 is currently 75% male versus 25% female, placing the Trust in a strong position to influence gender ratios at Consultant grade in the future.

## **EDI Steering Group & Staff Networks**

The Equality Diversity and Inclusion (EDI) Workforce Steering Group monitors and supports progress against the strategic goal of Embedding EDI, which is within the Trust's People Plan. This group reports into the People Committee which feeds up into the Trust Board providing assurance of progress against the plan.

The EDI Workforce Steering Group has representatives from across a range of EDI staff networks and groups. The EDI Steering Group meets monthly and includes the Patient Experience Lead and integrates work from other Trust strategies (i.e. health and wellbeing, education, learning and development) to ensure our patients and carers have a positive experience. The work of the group has included the development of EDI network groups, providing a forum for individuals to come together, to share ideas, raise awareness of challenges and provide support to each other. The network groups identified so far are:

- Black Asian Minority Ethnic Network (BAME)
- Childless Not By Choice (CNBC) Group
- Disability & Long Term Health Group
- Faith Network

- Lesbian, Gay, Bisexual and Transgender Networks (LGBT+)
- Menopause Group

We relaunch the Disability and Long-Term Health Network group in September 2022.

#### **EDI Calendar of Events**

During 2022/23 a new calendar of EDI awareness events has been delivered including to events linked to Ethnicity, Sexual Orientation, Gender Reassignment, Disability, Religion & Belief and Gender.

Support to develop a range of initiatives is provided through representatives of the EDI Workforce Steering Group as well as the various staff networks and support groups.

The Trust's is committed to EDI education and a range of training is made available to staff, in addition to mandatory EDI training. The training focuses on the Trust's commitment to ensure all staff are free from discrimination and feel equally supported in career progression and opportunities. We introduce all new starters to EDI at the Trust Welcome Induction including an overview of the staff networks.

#### Workforce Race Equality Scheme and the Workforce Disability Equality Scheme

The Trust has reviewed its Workforce Race Equality Scheme (WRES) and Workforce Disability Equality Scheme (WDES) and updated the annual action plans to support further improvements in developing an inclusive culture. The Trusts Workforce Disability Equality Scheme and supporting information is being used to underpin and provide an evidence base in the development of the Health and Wellbeing Strategic Plan, including achieving the Better Health at Work Award at Silver level.

#### Sickness Absence

In September 2022 the Trust established a Wellbeing and Attendance team within HR to support and guide managers with their long-term sickness cases. The team has prioritised their support for cases based on the length of absence. The team have also placed focus on ensuring that absence is managed through process, whilst providing support to staff to return to work where possible.

The average sickness absence rate for the Trust for the period March 2022 – February 2023 was 5.53% which exceeded the Trust target of 3.9%. There are a number of factors contributing to higher rates of sickness absence, including a long period supporting a pandemic, feelings of burnout and industrial unrest. New sickness absence targets have been agreed with Collaborative senior management teams for 2023/24 based on their current and average position in 2022/23. We are confident that the new targets are achievable and will be supported by our strategy to reduce sickness absence across the Trust.

## **NHS Doctors and Dentists in Training**

The vacancy rate in 2022/2023 is similar to the previous year (0.5%) at 0.6%. Vacancies have been covered in the main via re-adjusting rotas. Vacancies have been actively recruited to throughout the year - whilst an increased use of recruitment of Doctors via the Medical Training Initiative has helped to fill ST3+ level vacancies in a number of specialties.

We continue to fill approximately 95% of all locum shifts each month with the majority (approximately 90%) being filled by internal locum cover as opposed to agency. The regional

locum bank (FlexiShift) hosted by Northumbria Healthcare - Lead Employer Trust (LET) - is well established for all LET employees. The regional bank provides the Trust with access to an additional pool of LET employed doctors in training who work in other regional Trusts and GP surgeries.

The Trust has also recently introduced a new "Covering Gaps in Medical Rotas Policy". The overall aim of the policy is to decrease the amount of locum requirements by firstly ensuring utilisation of internal resources which should have a positive impact on locum spend in financial year 2023/2024.

In line with the Terms and Conditions of Service for NHS Doctors and Dentists in Training (England) 2016, we have an established Guardian of Safe Working (GOSW) reporting quarterly to the Board and People Committee and a Junior Doctors' Forum meeting quarterly.

## Developing a Sustainable Workforce

We have some difficulties recruiting to some role, particularly where there are national shortages such as medical staff, specialist nursing, midwives and some allied health professionals. In addition, in some areas we have high projections for retirements over the next five years.

Our objectives for developing a sustainable workforce are:

- To further develop our Collaborative and Directorate workforce planning process and succession plans to identify workforce needs now and in the future. The workforce plans will include resourcing plans to support capacity and demand plans, that will utilise our people and identify innovate resourcing solutions
- Establish real time reportable establishment and vacancy rates for our clinical collaborative to support recruitment
- Continue to embed creative and flexible values-based approaches to recruitment, attracting and retaining colleagues who are looking for flexibility throughout their employment
- Overall reduction in agency spend and overtime
- Further develop our Improvement Planning Process to include key workforce challenges, identified within the workforce plans.
- Work with our colleagues and local communities to develop South Tees as the employer of choice

We continue to embed values based recruitment to help attract and select employees whose personal values and behaviours align with the values of the Trust. To date over 500 interview panels have utilised values based recruitment. Candidates are provided with the opportunity to feedback on their recruitment experience to support the continuous improvement of the HR service.

The Trust half day Welcome Induction has been running since July 2021 and provides a comprehensive overview of the organisational priorities and services. The induction provides a focus on the Trusts mission and values, this is threaded through a range of subjects which include:

- Patient experience
- Safeguarding
- People plan
- Trust values and behaviours
- Equality, diversity and inclusion

- Human factors
- Civility
- Freedom to speak up
- HR services
- Health and wellbeing
- Learning and development

We continue to build our relationships with higher education and further education sectors which will provide an opportunity for us to develop a talent pipeline and also enable our colleagues to develop into new roles.

## Day Nursery

Playdays Nursery is an excellent onsite facility, offering quality and flexible childcare for our staff's children whilst they are at work. It was awarded a 'good' rating following our recent Ofsted inspection. Nursery fees are extremely competitive in comparison to other local nurseries and the nursery offers extended opening times to staff working clinical shifts within the Trust.

## **Relationships with Trade Unions**

We continue to develop our partnership with Trades Unions colleagues, with a Partnership Agreement which supports the following aims:

- 1. Promotes close co-operation between staff and managers within the Trust by providing a forum in which all matters affecting staff can be discussed and relevant information passed on. This includes NHS policies and strategies, Trust operational and financial performance, key Trust service strategies, objectives and projects e.g. corporate level/ large scale change management projects.
- 2. Provides opportunities for joint problem-solving in relation to issues affecting the wellbeing of employees and the efficient operation of the organisation. It is recognised good practice that management and staff side will consult on any significant decision that is likely to affect staff members.
- 3. Supports consultation in relation to key changes in our HR policies.

The Joint Partnership Committee (JPC) attended by both management and Staff Side colleagues meets on a monthly basis; agenda items including the areas summarised above. The NHS and Trust continues to be a changing and challenging environment with both management and Staff Side recognising that their interest are mutually compatible with the aim of preserve jobs and the quality of services.

## **Employment Policies and Partnership Working**

The Joint Partnership Committee ensures that HR policies and procedures are fit for purpose, reflective of any changes to employment law and support equality and diversity within the workplace. The JPC also provides Staff Side with an opportunity to be updated regarding other policies that are led by other corporate areas e.g. Freedom to Speak Up; Raising Concerns at Work policy. Policies are revised and presented to JPC on a scheduled basis.

List of reviewed and approved policies for 2022/2023 -

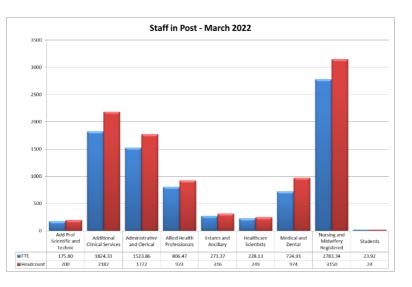

Special Leave Policy C	Car Parking Charge Notice Policy
------------------------	----------------------------------

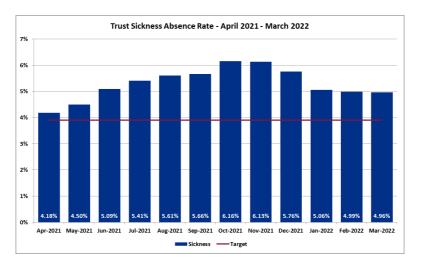

Job Evaluation Policy	Exit Interview Guidance		
ACP Policy	Remediation Policy		
Annual Leave, Bank Holiday &	Nursing & Midwifery - Trust Temporary

Relocation Policy	Transgender, Non-Binary and Gender		
	Diverse Inclusion Guidance		

## **Trades Union Facility Time**

Time spent on paid trade union activities as a percentage of total paid facility time hours was 3.63% in 2021/22. This figure is based on 31 Trade Union Representatives

#### Workforce data

# **EPRR Assurance**

The NHS England Core Standards for EPRR are the minimum standards which NHS organisations must meet for emergency preparedness and response. The Trust is required to undertake an annual self-assessment against the core standards to provide assurance to NHS England that robust and resilience EPRR arrangements are maintained within the Trust.

For 2022/23 there were 64 standards that the Trust was required to report against, split into 10 domains. This was an increase on the 2021/22 standards which were reduced to 46 due to national recognition of the impact of COVID on EPRR work, particularly in respect of planning, training and exercising.

In addition, there was a separate 'deep dive' into evacuation and shelter although this is not taken into account within the overall statement of compliance.

Following completion of the 2021/22 self-assessment process, the Trust was able to declare **substantial compliance** against the EPRR core standards.

Domain	No of standards	Fully compliant	Partially compliant
Governance	6	6	0
Duty to assess risk	2	2	0
Duty to maintain plans	11	8	3
Command and control	2	1	1
Training and exercising	4	1	3
Response	7	6	1
Warning and informing	4	4	0
Co-operation	4	3	1
Business continuity	10	7	3
CBRN	14	14	0
Total	64	52	12
Deep dive – evacuation and shelter (not included in overall total)	13	2	11
Total	13	2	11

## **EPRR** activity and priorities

2022/23 has been another challenging year for EPRR, with the ongoing implementation of the EPRR recovery workplan at the same time as supporting the continued response to COVID (as it becomes embedded into business as usual) and the additional demands on NHS services. There have also been a variety of disruptive incidents over the last 12 months which required the implementation of contingency arrangements to keep patients safe and maintain essential services.

EPRR priorities for the coming year include ongoing co-ordination and delivery of the EPRR recovery plan; continued development of EPRR arrangements across the Trust and the rollout of EPRR training and EPRR personal development portfolios for all strategic and operational commanders plus other key roles.

# Health and Safety Policies

Regulation 5 of The Management of Health & Safety Regulations sets out that organisations must have suitable arrangements in place for their undertakings. South Tees Hospitals NHS Foundation Trust fulfils this obligation by providing a number of specific health and safety related policies. The Trust's policies have been introduced and constantly developed as part of an ongoing commitment to its statutory and moral obligations. All the Trust's health and safety policies have a systemic approval route via the Health and Safety Subgroup and the Quality Assurance Committee ensuring key stakeholders, including staff-side colleagues, have the opportunity to contribute to policy development. Examples of these policies include:

- Health & Safety policy
- Lone Worker Policy
- Working with Display Screen equipment Policy
- Dealing with the safe handling of sharps Policy
- Reporting under RIDDOR Regulations Policy
- HS24 E-inspections Policy

## **Application of the Modern Slavery Act**

The Modern Slavery and Human Trafficking Act 2015 Act established a duty for commercial organisations to prepare an annual slavery and human trafficking statement to include the steps the organisation has taken during the year to ensure that slavery and human trafficking is not taking place in any of its supply chains or in any part of its own business.

Our Trust is the largest in the Tees Valley and North Yorkshire, and we are fully aware of the responsibilities it bears towards patients, employees and the local community. Our senior procurement team regularly monitor and review its supply base and are all suitably qualified and uphold to the Chartered Institute of Purchasing and Supply code of conduct.

All members of our staff have a personal responsibility for the successful prevention of slavery and human trafficking with the procurement department taking lead responsibility for the supply chain.

## Income disclosures

In 2022/23, the Trust met the requirement that income from the provision of goods and services for the purposes of the Health Service in England must be greater than its income from the provision of goods and services for any other purposes as defined under section 43(2A) of the NHS Act 2006 (as amended by the Health and Social Care Act 2012).

All net income from the provision of goods and services for other purposes has been reinvested back into frontline healthcare for the benefit of patients.

## **Quality and Clinical Governance**

The Care Quality Commission (CQC) has a role to ensure that health and social care services that are provided are done so safely, effectively, compassionately, and are of the highest quality. The CQC is responsible for monitoring, inspecting and regulating services to ensure

they meet core standards of quality and safety and publish their findings to help people choose their care provider.

During 2019/20, the CQC carried out unannounced and announced inspections of services provided at the Trust. The CQC published their findings on their website on 2 July 2019 and the overall rating for the Trust is 'Requires Improvement'.

The Care Quality Commission conducted a focused inspection at the Trust on 9-10 February 2022. The CQC identified a number of improvements to take place during 2022 and issued a formal notice on changes required which the Trust took forward as part its recovery from COVID-19. The CQC undertook a full re-inspection of the Trust from November 2022 to January 2023. The Trust achieved an overall rating uplift from 'Requires Improvement' to 'Good'.

The Trust is fully compliant with the registration requirements of the Care Quality Commission.

## **Accounting Officer's Responsibilities**

Statement of the Chief Executive's Responsibilities as the Accounting Officer of South Tees Hospitals NHS Foundation Trust (STHFT).

The NHS Act 2006 states that the Chief Executive is the Accounting Officer of the NHS Foundation Trust. The relevant responsibilities of the Accounting Officer, including their responsibility for the propriety and regularity of public finances for which they are answerable, and for the keeping of proper accounts, are set out in the *NHS Foundation Trust Accounting Officer Memorandum* issued by NHS England.

NHS England, in exercise of the powers conferred on Monitor by the NHS Act 2006, has given Accounts Directions which require South Tees Hospitals NHS Foundation Trust to prepare for each financial year a statement of accounts in the form and on the basis required by those Directions. The accounts are prepared on an accruals basis and must give a true and fair view of the state of affairs of the Trust and of its income and expenditure, total recognised gains and losses and cash flows for the financial year.

In preparing the accounts, the Accounting Officer is required to comply with requirements of the Department of Health and Social Care Group Accounting Manual and in particular to:

- Observe the Accounts Direction issued by NHS England, including the relevant accounting and disclosure requirements, and apply suitable accounting policies on a consistent basis
- Make judgements and estimates on a reasonable basis
- State whether applicable accounting standards as set out in the NHS Foundation Trust Annual Reporting Manual (and the Department of Health and Social Care Group Accounting Manual) have been followed, and disclose and explain any material departures in the financial statements
- Ensure that the use of public funds complies with the relevant legislation, delegated authorities and guidance
- Confirm that the Annual Report and Accounts, taken as a whole, is fair, balanced and understandable and provides the information necessary for patients, regulators and stakeholders to assess STHFT's performance, business model and strategy; and
- Prepare the financial statements on a going concern basis

The Accounting Officer is responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of STHFT and to enable her to ensure that the accounts comply with requirements outlined in the above mentioned Act. The Accounting Officer is also responsible for safeguarding the assets of STHFT and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

To the best of my knowledge and belief, I have properly discharged the responsibilities set out in the *NHS Foundation Trust Accounting Officer Memorandum*.

Signed:

Date: 25.07.23

Sue Page CBE Chief Executive & Accounting Office

#### Annual Governance Statement

#### Scope of Responsibility

As Accounting Officer, I have responsibility for maintaining a sound system of internal control that supports the achievement of the NHS foundation trust's policies, aims and objectives, whilst safeguarding the public funds and departmental assets for which I am personally responsible, in accordance with the responsibilities assigned to me. I am also responsible for ensuring that the NHS foundation trust is administered prudently and economically and that resources are applied efficiently and effectively. I also acknowledge my responsibilities as set out in the NHS Foundation Trust Accounting Officer Memorandum.

#### The Purpose of the System of Internal Control

The system of internal control is designed to manage risk to a reasonable level rather than to eliminate all risk of failure to achieve policies, aims and objectives; it can therefore only provide reasonable and not absolute assurance of effectiveness. The system of internal control is based on an ongoing process designed to identify and prioritise the risks to the achievement of the policies, aims and objectives of South Tees Hospitals NHS Foundation Trust, to evaluate the likelihood of those risks being realised and the impact should they be realised, and to manage them efficiently, effectively and economically. The system of internal control has been in place in South Tees Hospitals NHS Foundation Trust for the year ended 31 March 2023 and up to the date of approval of the annual report and accounts.

#### Capacity to Handle Risk

Within the Trust, overall responsibility for risk management is held by the Chief Executive in line with the Trust Scheme of Reservation and Delegation. The Chief Executive discharges this responsibility in line with the Risk Management Policy as follows:

The Chief Nurse and Chief Medical Officer are responsible for clinical risk management and this is discharged within the Quality and Safety Team.

The Director of Estates, Facilities and Capital Planning and Head of Governance & Company Secretary are responsible for non-clinical risk management.

Executive Directors and Directors who attend the Board have delegated responsibility for managing risks in accordance with their portfolios as reflected in their job descriptions. For example, the Chief Finance Officer has executive responsibility for financial governance and associated financial risks.

The Corporate Risk Review Group oversees the operation of the Trust's risk management process. Membership of the group includes clinical and non-clinical representation across the Collaboratives and Directorates along with Director level input. The Corporate Risk Review Group is chaired by the Managing Director and accountable to the Clinical Policy Group (Trust management decision making group) via the Senior Leadership Team and is responsible for holding Collaboratives and Directorates to account for the management of risk. Assurance to the Board is provided through the Audit & Risk Committee.

The Audit & Risk Committee is tasked with reviewing the establishment and maintenance of an effective system of integrated governance, risk management and internal control, across the whole of the organisation's activities (both clinical and non-clinical), that supports the achievement of the organisation's objectives.

All staff are responsible for health and safety and the effective management of risks within their

teams, services or departments and must keep themselves and others safe. All staff have a duty of care to provide safe services and do no harm.

Staff training and development needs with regards to risk management and safety are described in the Trust's Mandatory Training Policy. Staff receive appropriate training relevant to their post requirements. All staff receive an introduction to the organisation and core training (risk management, health and safety, equality and human rights, information governance, safeguarding and infection control). More specific training is provided, dependent upon the individual's job role or work location, and includes incident reporting and investigation, Safeguarding Adults and Children, Mental Health Act, Mental Capacity Act, First Aid and Life Support (including resuscitation), Clinical Risk Assessment and Management, Medicines Management and Respect (managing violence and aggression). Development and training needs will be reflected in personal development plans (PDPs) over and above mandatory training.

## The risk and control framework

The Risk Management Policy provides a framework for managing risks across the Trust and is consistent with best practice and Department of Health and Care guidance. The policy provides a clear, structured and systematic approach to the management of risks to ensure that risk assessment is an integral part of clinical, managerial and financial processes across the organisation. The policy sets out the role of the Trust Board and its committees together with the individual responsibilities of the Chief Executive, Executive Directors, Directors and all staff, in managing risk.

Risk management by the Trust board is underpinned by five (5) interlocking systems of internal control:

- The Board Assurance Framework
- Corporate Risk Register (informed by Collaboratives, corporate directorates and team)
- Board Sub Committees (1<sup>st</sup> line)
- Audit and Risk Committee (2<sup>nd</sup> line)
- Annual Governance Statement

The *Board Assurance Framework* (BAF) sets out the principal risks to delivery of the Trust's strategic objectives together with the controls in place to mitigate the risks and the assurance that can be evidenced relating to their control.

The Board has overall responsibility for ensuring systems and controls are in place, sufficient to mitigate risks which may threaten the achievement of the Trust's objectives.

The Board achieves this primarily through the work of its committees, through use of Internal Audit and other independent inspection and by systematic collection and scrutiny of performance data to evidence the achievement of the objectives. It does this by using a model of assurance which shows the boundaries between different roles and responsibilities in the management and assurance of risks. This helps to avoid duplication and gaps in its risk management, performance management, governance and control arrangements. By setting out roles and responsibilities relating to risk management and assurance, the model links to the Trust's assurance framework using a three lines of defence model, with assurance sources mapped to risks. This model is fully adopted by the committees who have been able to measure quality of assurance not just its quantity.

The BAF is designed to provide the Board with a simple but comprehensive method for the effective and focussed management of principal risks to Trust objectives. The Board defines the principal risks and ensures that each is assigned to a Lead Director as well as to a Lead Committee:

- The Lead Director is responsible for assessing any principal risks assigned to them by the Board and for providing assurance as to the effectiveness of primary risk controls to the Lead Committee
- The role of the Lead Committee is to review the Lead Director's assessment of their principal risks, consider the range of assurances received as to the effectiveness of primary risk controls, and to recommend to the Lead Director any changes to the BAF to ensure that it continues to reflect the extent of risk exposure at that time
- The Audit and Risk Committee is responsible for reviewing the whole BAF in order to provide assurance to the Board that principal risks are appropriately rated and are being effectively managed; and for advising the Board as to the inclusion within the BAF of additional risks that are of strategic significance

During 2022/23 the Board refreshed its strategic objectives and principal risks within the BAF. The Trust Board has received and reviewed the Board Assurance Framework in full four times throughout the year with monthly reports on assurance. The three main Board committees have received and reviewed the Board Assurance Framework relevant to their area on a monthly basis.

The Board and its committees are not involved in operational management and delivery, but exercise oversight of the management of the organisation. The Board and its committees require assurance from management (and other sources) in order to carry out their role in corporate governance. A front sheet template for Board and its committees provide them with a recommendation on the level of assurance to reflect the conclusion of the report being presented. There has been good examples of challenge and reflection of the level of assurance as Committee level.

The proforma Board Assurance Framework document complies with HM Treasury Guidance on Assurance Frameworks.

The principal risks identified and monitored through the BAF during the year related to:

- Inability to achieve standards of safety and quality of patient care across the Trust resulting in substantial incidents of avoidable harm and poor clinical outcomes
- A critical infrastructure failure caused by an interruption to the supply of one or more utilities (electricity, gas, water), an uncontrolled fire or security incident or failure of the built environment that renders a significant proportion of the estate inaccessible or unserviceable, disrupting services for a prolonged period and compromises ability to deliver high quality care
- Failure to deliver sustainable services due to gaps in establishment, due to ability to recruit and retain
- Failure to deliver as a centre of excellence, resulting in a lack of priority and recognition from commissioners and other stakeholders
- Working more closely with local health and care partners does not fully deliver the required benefits
- Inability to agree financial recovery plan with the regulator
- Failure to deliver the Trust's financial recovery plan

The *Corporate Risk Register* is a collated summary of the risks identified as being the high-level risks to the Trust, as set out in the Risk Management Policy. These are the operational risks of 15 and above. Each Collaborative and Corporate Directorate has in place risk registers which are overseen by the Corporate Risk Review Group, CPG and the Audit & Risk Committee. It directs management focus to the mitigation of significant risks.

*The Audit and Risk Committee* is responsible for scrutinising the overall systems of internal control (clinical and non-clinical) and for ensuring the provision of effective independent assurance via internal audit, external audit and local anti-fraud services.

The Audit & Risk Committee reports to the Board via a Chair's log after every meeting and annually on its work via the Annual Report of the Audit & Risk Committee in support of the Annual *Governance Statement*, specifically commenting on the fitness for purpose of the BAF, the completeness and extent to which risk management is embedded in the Trust and the integration of governance arrangements. It has fulfilled the role by using the assurance provided in the Board Assurance Framework which it receives in full.

The Audit & Risk Committee has also assessed its own effectiveness, what it has accomplished and whether it has fulfilled its responsibilities along with that of the Board sub committees during 2022/23 and has concluded its is content with the scrutiny it, and Committees, have provided.

The Trust Board and its committees have taken an active role in the improvement of risk management processes. This has included the alignment of Board Assurance Framework to the Board committees and agreed schedules of review of the risks at each.

The Trust Board is responsible for setting the risk appetite of the organisation as described in the Risk Management Policy. Risk Appetite is defined as 'the amount of risk the organisation is prepared to accept, tolerate, or be exposed to at any point in time.' It allows the Board to take considered risks and to seek assurance that risks of any grade in areas of low tolerance are being managed, rather than focussing predominately on high rated risks. During 2022/23 the Board through its committees considered their risk appetite which was approved by the Board at its meeting in July 2022.

## **Quality Governance Arrangements**

The Trust has robust and effective quality governance arrangements in place which include:

- The Chief Nurse and Chief Medical Officer are responsible for the quality governance arrangements in the Trust and this is discharged within the Quality and Safety Team
- The Quality Assurance Committee, chaired by Ms Davidson, Non Executive Director, which has oversight of the Quality Governance framework, with sub-groups focusing on patient experience, patient safety, clinical effectiveness, Infection Control, Safeguarding, Safer Medication and Health & Safety.
- an annual clinical audit programme which is approved at Quality Assurance Committee and Audit & Risk Committee
- Serious Incidents occurring within the organisation are subject to human factors and systems based investigation and are reported to the Quality Assurance Committee for discussion and understanding of the learning from the event, in addition to being shared with SLT on a fortnightly basis.
- all staff are encouraged to report incidents and learning is shared across the organisation
- Freedom to Speak Up Guardians are effective and visible across the whole of the organisation
- the Trust Board receives a report from the Chair of the Quality Assurance Committee, and private discussions around key issues arising.
- the Board Assurance Framework provides assurance against the strategic objectives of delivering excellence in patient outcomes and experience.

The Trust introduced a Collaborative Assurance Framework in 2021/22 which was updated in 2022/23 which maintains a focus on strong governance and leadership across quality, finance and clinical care, ensuring that there is clinically led management decision-making, as close as possible to the point of care delivery.

The Trust continues to have a focus on learning from previous CQC inspections and developing a readiness for future inspections. A CQC Project Team supported a weekly meeting to review evidence of progress with embedding actions from the 2019 inspection, and evidence of

compliance with standards and key lines of enquiry. A monthly update is reported to the CQC Compliance Group, Quality Assurance Committee and Trust Board.

The Trust is committed to ensuring that, as far as is reasonably practicable, the way we provide services to the public and the way we treat our staff reflects their individual needs and does not discriminate against individuals or groups on any grounds. The equality impact assessment is incorporated into the Quality and Equality Impact Assessment (QEIA) process which is part of robust governance arrangements in the Trust. This process has been developed to ensure the trust has the appropriate steps in place to safeguard quality whilst delivering significant changes to service delivery and also understand the impact of the change either negatively or positively on any groups of the community which may be affected.

## Well Led

The Trust Board development programme sets out the process by which it will assess itself against the NHS Improvement's well led framework as part of the Trust's journey of improvement. The Board has carried out self-review against the Well Led Framework in December 2019. An action plan was developed and work continues to deliver the outcomes agreed by the Board. The plan is a key aspect of the improvement plan for the Trust.

During 2022/23 the Trust received ongoing quality monitoring and regulatory oversight from the ICB and CQC with regular quality review groups and engagement meetings taking place throughout the year.

The CQC undertook a well led inspection of the Trust in January 2023 and the rating was uplifted from 'Requires Improvement' to 'Good'.

## Compliance with NHS Provider Licence

Since 2017/18, NHS Trusts have been required to make an annual statement of confirmation in relation to compliance with elements of the NHS Provider Licence as follows:

- G6 Meeting the requirements of the licence and the NHS Constitution, and having implemented effective arrangements for the management of risk
- FT4 Relates to corporate governance arrangements covering systems and processes of corporate governance in place and effective; effective Board and Committee arrangements; compliance with healthcare standards; effective financial decision making; sufficient capability and capacity at Board and all levels in the organisation; accountability and reporting lines.
- Condition CoS7 for NHS foundation trusts only, the required resources available if providing commissioner requested services (CRS).

The Trust Board confirmed that it has taken all precautions necessary to comply with the licence, NHS Acts and NHS Constitution (Condition G6), that it has not complied with the required governance arrangements Condition FT4(8) and has a reasonable expectation that required resources will be available to deliver designated services Condition CoS7(3).

## Annual Quality Report (Account)

Organisations are required under the <u>Health Act 2009</u> and subsequent <u>Health and Social Care</u> <u>Act 2012</u> to produce Quality Accounts and to publish these for the 2022-23 financial year by 30 June 2023.

The processes for producing Quality Accounts remain the same as previous years, with the following exceptions to NHS providers:

- NHS foundation trusts are no longer required to produce a Quality Report as part of their Annual Report. NHS foundation trusts will continue to produce a separate Quality Account for 2022-23.
- There is no national requirement for NHS trusts or NHS foundation trusts to obtain external auditor assurance on the quality account or quality report, with the latter no longer prepared. Any NHS trust or NHS foundation trust may choose to locally commission assurance over the quality account; this is a matter for local discussion between the Trust (or governors for an NHS foundation trust) and its auditor. For quality accounts approval from within the Trust's own governance procedures is sufficient.
- The publication process has been amended for this year, the NHS.uk website no longer allows NHS organisations to upload reports. All providers producing Quality Accounts are to upload this to an appropriate page on the organisation's website, where this is clearly visible and easily accessed by members of the public and forward the link of the webpage to <u>quality-accounts@nhs.net</u>

Integrated care boards (ICBs) have assumed responsibilities for the review and scrutiny of Quality Accounts. ICBs must clarify with providers where they are expected to send their Quality Account.

### Systems and processes

The Trust uses a range of key performance indicators (KPIs), which include non-financial measures, to manage its day to day business which are reported in the Integrated performance report. This approach helps to provide a comprehensive and balanced view of performance. (More information about KPIs can be found in our Quality Report which will be separately published on the Trust's website).

In addition, routine reports are received by the Quality Assurance Committee and Board as appropriate including:

Summary Hospital Level Mortality Indicator PROMS National inpatient survey Staff FFT Clostridium difficile Patient safety incidents Patient FFT Clinical audit

There has been a continued focus during 2022/23 to embed the STAQC accreditation program into all the clinical areas. Baseline accreditations have been included as the starting point of the formal process for some wards and departments, providing the clinical areas with a baseline report detailing their current standard and expected timebound actions required to achieve either gold or diamond accreditation soon. The accreditations achieved during 2022/23 were:

- 17 diamond accredited areas
- 22 gold accredited areas

- 8 silver areas
- 10 baseline areas

Post accreditation checks for the areas initially accredited at the start of the program are now underway to ensure robustness and standards are maintained after accreditation. One day per month the team are working through assurance visits. 13 have been completed.

We have developed our quality priorities in conjunction with the council of Governors and our service users which are agreed and reported to the Board.

#### Data use and reporting

The Trust has a small Data Quality team, focused on data quality in our patient administration system, such as patient demographics to enable effective communication with our patients; improving recording of all activity delivered to ensure the correct income is mapped; and elective pathway outcome codes which ensure the accuracy of elective waiting time information. This year, performance analysis has also been focused on improving the processing and assurance of our elective and diagnostic waiting time data, contributing to the reduction in patients with very long waits for treatment in line with national operating framework.

A Trust-wide Change Advisory Board is now embedded to provide governance over systems and data recording changes required or proposed. There is a standard operating procedure in place for senior approval of mandatory reports for submission, and a rolling work programme to proactively review the data flows for these metrics to ensure they remain robust and aligned to changing clinical practice, digital systems and national guidance. In 2022/23 a number of new data flows have been introduced, for example the virtual wards sitrep, working in close partnership with clinical teams, and the business intelligence, finance and ICT teams have prepared for the introduction of the latest versions of key national data specifications.

These priority areas will continue to be the data quality focus for 2023/24, to support safe and effective care, income, and patient experience.

#### Workforce and Pension

The Trust continues to drive forward the recommendations for Developing Workforce safeguards and staffing reports are presented to the People committee. In the past year, Nursing, Midwifery and Allied Health (AHP) colleagues have met weekly to highlight staffing issues with teams working together to support areas of highest need. There has been collaboration between community and acute teams to support patient needs and organisational priorities with Therapy service leads meeting weekly to ensure a safe, effective and efficient use of staff throughout the organisation.

A report is produced every two years for nursing, midwifery, theatres, accident and emergency and community nurse staffing to the Board which sets out how the Trust deploys sufficient, suitably qualified, experienced staff who are competent and skilled to provide safe and effective care for all service users. South Tees has met these requirements for all its professional groups.

SafeCare huddles are held twice daily giving a full overview of staffing in real time and over the reporting period. Ward Managers and Matrons continue to conduct a look forward within their collaborative for all staffing on Mondays and Fridays and a weekly look back at Critical Care and Emergency Department to ensure safe staffing. Safer Nursing Care Tools have been obtained under licence and are being utilised for staffing establishment reviews and template for biannual reporting

The Trust has supported trainee nursing associates , student nurses, international nurses and midwives into post throughout the year to support workforce pressure, this has formed a revised recruitment process for newly qualified nurses whereby onboarding is personalised offering continuous contact with the Trust throughout the full recruitment process 6 months prior to qualification . The volunteer response is outstanding and this continues to support the Trust to maintain patient safety and staff well-being and offer a platform for many volunteers to embark on an NHS career

E-rostering Levels of Attainment are reviewed annually for all staff groups and reported through the Workforce Assurance Group, reporting to the People Committee and escalating to Board as required. Nursing is now fully set up on E roster. Unify reports which show levels of fill for all rosters, allowing for the Chief AHP to address staffing levels and sickness absence rates within teams and offer support as needed.

The Trust utilises an external staffing bank provided by NHS Professionals (NHSP), this partnership has allowed for the successful implementation of allocate on arrival critical shifts and rapid recruitment of support workers through the care support worker programme.

Regionally the Trust is involved in a Healthcare support worker recruitment programme that is to date proving successful

The Trust also received non recurrent funding from Health Education England to support AHP workforce strategies and introduce the support worker framework, which will ensure there is clear framework from which support workers work within and can develop.

The Trust is now linking with regional colleagues to develop strategies aimed at addressing national shortages of staff within the smaller professions. These include apprenticeships for Podiatry, Dietetics, Speech and Language Therapy and increasing placement capacity within radiology to meet increasing demand. AHP services are benchmarked against regional peers with Acute services involved in the Acute Therapies benchmarking programme which is led by the Model Hospital.

As an employer with staff entitled to membership of the NHS Pension Scheme, control measures are in place to ensure all employer obligations contained within the Scheme regulations are complied with. This includes ensuring that deductions from salary, employer's contributions and payments into the scheme are in accordance with the Scheme rules, and that member Pension Scheme records are accurately updated in accordance with the timescales detailed in the regulations.

Control measures are in place to ensure that all the organisation's obligations under equality, diversity and human rights legislation are complied with.

## **Care Quality Commission**

The Care Quality Commission (CQC) has a role to ensure that health and social care services that are provided are done so safely, effectively, compassionately, and are of the highest quality. The CQC is responsible for monitoring, inspecting and regulating services to ensure they meet core standards of quality and safety and publish their findings to help people choose their care provider.

During 2019/20, the CQC carried out unannounced and announced inspections of services provided at the Trust. The CQC published their findings on their website on 2 July 2019 and the overall rating for the Trust is 'Requires Improvement'.

The Care Quality Commission conducted a focused inspection at the Trust on 9-10 February 2022. The CQC identified a number of improvements to take place during 2022 and issued a

formal notice on changes required which the Trust took forward along with its plan for recovery from COVID-19.

The CQC undertook a full re-inspection of the Trust from November 2022 to January 2023.

The Trust achieved an overall rating uplift from 'Requires Improvement' to 'Good'.

The Trust is fully compliant with the registration requirements of the Care Quality Commission.

#### **Register of Interests**

The Trust has published on its website an up-to-date register of interests, including gifts and hospitality, for decision-making staff (as defined by the Trust with reference to the guidance) within the past twelve months as required by the Managing Conflicts of Interest in the NHS guidance.

#### **Trust Board**

The Trust is governed by the Trust Board comprising of eight Non-Executive Directors including the Chairman and two Associate Non-Executive Director, and five Executive Directors, including the Chief Executive.

The changes made to the Board during 2022/23 included the appointment of four new nonexecutive directors and two associate non-executive directors. Changes were made to the vice chair role and senior independent director role.

Leavers included Ms Debbie Reape, non executive director and senior independent director and Mr David Jennings, Audit Chair and temporary vice chair who left for personal reasons.

All changes were approved by the Nomination Committees and endorsed by the Council of Governors.

The overarching governance framework for the Trust is set out in detail in the Standing Orders, Standing Financial Instructions and the Scheme of Reservation and Delegation. The Corporate Governance Structure, Board Committee Terms of Reference, Standing Orders and Standing Financial Instructions were reviewed during the year to ensure the governance framework reflects the organisation of the Trust and maintains internal control.

The Board has overall responsibility for determining the future direction of the Trust and ensuring delivery of safe and effective services in accordance with legislation and principles of the NHS. The Trust Board also ensures that the organisation complies with relevant regulatory standards.

The Trust Board consider performance against national priorities set out in the NHS System Oversight Framework for NHS Providers, which sets out how NHS England works alongside Trusts to support the delivery of high quality and sustainable services for patients. The Trust continues to be rated as '3' on the NHS Improvement Finance Score Metric where 1 is the highest score with 4 the lowest. An overall score of 3 indicates that support may be required.

Performance is reported and discussed monthly in the Trust Board meeting and its Sub Committees.

#### Sustainable Development

The trust has undertaken risk assessments and has plans in place which take account of the 'Delivering a Net Zero Health Service' report under the Greener NHS programme. The trust ensures that its obligations under the Climate Change Act and the Adaptation Reporting requirements are complied with.

## Review of Economy, Efficiency and Effectiveness of the Use of Resources

The financial plan is approved by the Board of Directors and submitted to NHSE, our independent regulator (in exercising its powers originally conferred by Monitor). The process for approving the plan involves the Integrated Care Board (ICB) and the regional NHSE team to create a coordinated strategic and transformational submissions from the North East and Cumbria ICB. This plan includes forward projections and is monitored by the Resources Committee with key performance indicators and financial sustainability metrics also reviewed monthly by the Senior Leadership Team and the Board of Directors at each of its meetings.

The ICB has an overall requirement to break even at the end of the 12 month period which it achieved.

The Group's (excluding the Charity) deficit within the annual accounts of £81.6 million reconciles to the financial performance deficit of £22.2 million by adjusting for the net impairment of assets £58.3 million, donations towards capital expenditure £0.3 million, depreciation on donated assets £1.2 million and DHSC centrally procured inventories for COVID response £0.3 million.

Access to available capital funding in 2022/23 represented a risk to the Trust in relation to essential replacement and priority investment in the estate. The programme was mainly funded internally by the Trust although the Trust sought capital funding, in the form of Public Dividend Capital, to cover specific investment including investment in the Friarage estate. The Trust will continue in 2023/24 to review and prioritise all capital expenditure bids to minimise clinical and organisational risk.

Financial governance arrangements are managed within the corporate governance framework which includes Standing Orders, Standing Financial Instructions and a Scheme of Delegation. Financial governance is supported by internal and external audit to ensure economic, efficient and effective use of resources and is monitored by the Audit & Risk Committee.

The Trust's Internal Auditor (PwC) has drafted the Audit Opinion on the adequacy and effectiveness of governance, risk management and control. Their annual opinion for the year ending 31 March 2023 is 'Reasonable assurance / moderate assurance" which sets out that governance, risk management and control in relation to business critical areas is generally satisfactory. However, there are some areas of weakness and non compliance in the framework of governance, risk management and control which potentially put the achievement of objectives at risk.

Their annual plan, agreed with the Audit & Risk Committee, focussed on key BAF risks and Trust strategic priorities, including known areas of weakness. In 2022/2023 PWC identified three High, 13 Medium and ten Low risk rated findings to improve weaknesses in the design of controls and/or operating effectiveness. Three High risk rated findings have been identified across the reviews carried out during the year. These are ITDR; Procurement and Contract Management; Data Quality with full details discussed at the Audit & Risk Committee and management actions in place to address the gaps.

#### **Information Governance**

In 2022/23 there have been five information governance breaches required reporting to the Information Commissioners office through the online data security protection toolkit. All five related to personal data breaches. The incidents were investigated internally within the Trust. The findings of the investigations were shared with the Information Commissioner as part of the wider scrutiny of the occurrences. All cases were reviewed by the Information Commissioner who made recommendations on four of the cases which were closed without any formal action from

the Commissioner. One incident remains open and the Trust and ICO continue to liaise over the incident.

The Data Security and Protection Toolkit (DSPT) is an online self-assessment tool that allows organisations to measure their performance against the National Data Guardian's 10 data security standards.

At the time of writing, the status of the 2022/23 DSP Toolkit is as follows:

The Trust has provided 96 of the 113 mandatory evidence items required. 20 of the 36 assertions in this year's Toolkit have been completed. The final submission date is 30th June 2023.

For further details please refer to the Quality Report 2022/23.

#### **Review of Effectiveness**

As Accounting Officer, I have responsibility for reviewing the effectiveness of the system of internal control. My review of the effectiveness of the system of internal control is informed by the work of the internal auditors, clinical audit and the executive managers and clinical leads within the NHS Foundation Trust who have responsibility for the development and maintenance of the internal control framework. I have drawn on performance information available to me. My review is also informed by comments made by the external auditors in their management letter and other reports. I have been advised on the implications of the result of my review of the effectiveness of the system of internal control by the Board, the Audit & Risk Committee, the Resources Committee, the Quality Assurance Committee, and People Committee and a plan to address weaknesses and ensure continuous improvement of the system is in place.

### Conclusion

In conclusion, the Trust had the following significant internal control issues in 2022/23:

#### 1) Provider Licence Additional Restrictions

On the 30 October 2019, the Trust received notification of "Intent to modify Additional Licence Condition". An updated s.106 enforcement undertaking was set out in a letter dated May 2021 which sets out breaches in relation to the following conditions of licence: FT4 sections (5a), (5b), (5d) and 5(f) and CoS3(1).

## 2) System Oversight Framework

Across the themes of the SOF (quality of care, finance and use of resources, operational performance, strategic change, leadership and improvement capability) the Trust is placed in segment 3, mandated support for significant concerns, under the NHSE Regulatory Approach (Support Regime). The Trust is currently gaining external support on emergency care pathways and cost improvement and transformation.

Signed:

Date: 25.07.23

## Independent auditor's report to the Council of Governors of South Tees Hospitals NHS Foundation Trust

## Report on the audit of the financial statements

## **Opinion on the financial statements**

We have audited the financial statements of South Tees Hospitals NHS Foundation Trust ('the Trust') and its subsidiaries ('the Group') for the year ended 31 March 2023 which comprise the Group and Trust Statements of Comprehensive Income, the Group and Trust Statements of Financial Position, the Trust and Group Statement of Changes in Taxpayers' Equity, the Group and Trust Statements of Cash Flows, and notes to the financial statements, including the summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and international accounting standards as interpreted and adapted by HM Treasury's Financial Reporting Manual 2022/23 as contained in the Department of Health and Social Care Group Accounting Manual 2022/23, and the Accounts Direction issued under the National Health Service Act 2006.

In our opinion, the financial statements:

- give a true and fair view of the financial position of the Trust and Group as at 31 March 2023 and of the Trust's and the Group's income and expenditure for the year then ended;
- have been properly prepared in accordance with the Department of Health and Social Care Group Accounting Manual 2022/23; and
- have been properly prepared in accordance with the requirements of the National Health Service Act 2006.

## Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities section of our report. We are independent of the Trust and Group in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## Conclusions relating to going concern

In auditing the financial statements, we have concluded that the Accounting Officer's use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, and taking into account the requirements of the Department of Health and Social Care Group Accounting Manual, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Trust's or the Group's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the Accounting Officer with respect to going concern are described in the relevant sections of this report.

## Other information

The Directors are responsible for the other information. The other information comprises the information included in the Annual Report, other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in these regards.

## Responsibilities of the Accounting Officer for the financial statements

As explained more fully in the Statement of Accounting Officer's Responsibilities, the Accounting Officer is responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the Accounting Officer determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

The Accounting Officer is required to comply with the Department of Health and Social Care Group Accounting Manual 2022/23 and prepare the financial statements on a going concern basis, unless the Trust is informed of the intention for dissolution without transfer of services or function to another public sector entity. The Accounting Officer is responsible for assessing each year whether or not it is appropriate for the Trust and Group to prepare financial statements on the going concern basis and disclosing, as applicable, matters related to going concern.

## Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. Based on our understanding of the Trust and Group, we identified that the principal risks of non-compliance with laws and regulations related to the National Health Service Act 2006 (as amended by the Health and Social Care Act 2012), and we considered the extent to which non-compliance might have a material effect on the financial statements.

We evaluated the Accounting Officer's incentives and opportunities for fraudulent manipulation of the financial statements (including the risk of override of controls) and determined that the principal risks were related to posting manual journal entries to manipulate financial performance, management bias through judgements and assumptions in significant accounting estimates, significant one-off or unusual transactions and the risk of fraud in revenue recognition.

Our audit procedures were designed to respond to those identified risks, including non-compliance with laws and regulations (irregularities) and fraud that are material to the financial statements. Our audit procedures included but were not limited to:

- discussing with management and the Audit and Risk Committee the policies and procedures regarding compliance with laws and regulations;
- communicating identified laws and regulations throughout our engagement team and remaining alert to any indications of non-compliance throughout our audit; and
- considering the risk of acts by the Trust and Group which were contrary to applicable laws and regulations, including fraud.

Our audit procedures in relation to fraud included but were not limited to:

- making enquiries of management and the Audit and Risk Committee on whether they had knowledge of any actual, suspected or alleged fraud;
- gaining an understanding of the internal controls established to mitigate risks related to fraud;
- discussing amongst the engagement team the risks of fraud;
- addressing the risks of fraud through management override of controls by performing journal entry testing; and
- addressing the risk of fraud through revenue recognition by testing a sample of revenue around the year-end; considering information provided by the Department of Health and Social Care in respect of year end intra-NHS transactions; and review of management oversight of material accounting estimates and changes to accounting policies.

There are inherent limitations in the audit procedures described above and the primary responsibility for the prevention and detection of irregularities including fraud rests with management and the Audit and Risk Committee. As with any audit, there remained a risk of non-detection of irregularities, as these may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal controls.

We are also required to conclude on whether the Accounting Officer's use of the going concern basis of accounting in the preparation of the financial statements is appropriate. We performed our work in accordance with Practice Note 10: Audit of financial statements and regularity of public sector bodies in the United Kingdom, and Supplementary Guidance Note 01, issued by the Comptroller and Auditor General in April 2021.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at <u>www.frc.org.uk/auditorsresponsibilities</u>. This description forms part of our auditor's report.

# Report on the Trust's arrangements for securing economy, efficiency and effectiveness in the use of resources

## Matter on which we are required to report by exception

We are required to report to you if, in our opinion, we are not satisfied that the Trust has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources for the year ended 31 March 2023.

We have not completed our work on the Trust's arrangements. On the basis of our work to date, having regard to the guidance issued by the Comptroller and Auditor General in January 2023, we have identified the following significant weakness in the Trust's arrangements for the year ended 31 March 2023.

In June 2021 we identified a significant weakness in relation to financial sustainability for the 2020/21 year. In our view this significant weakness remains for the year ended 31 March 2023:

Significant weakness in arrangements – issued in a previous year	Recommendation
In October 2019 the Trust received notification of an 'intent to modify Additional License Condition' from NHS Improvement. This identified concerns around finance, governance and quality.	The Trust should continue to take action in response to the issues raised by regulators in relation to financial planning, management and control to appropriately manage financial risk and demonstrate financial sustainability.
Whilst the Trust was notified of the removal of additional license conditions relating to governance, quality and safety in April 2021, concerns remain around finance.	In particular, it needs to fully implement the financial recovery plan, supported by robust financial control and monitoring processes. Arrangements for challenging and scrutinising
In our view, this issue represents a significant weakness in arrangements in relation to financial sustainability (how the Trust plans and manages its resources to ensure it can continue to deliver its services).	financial risks and performance, including escalation arrangements, should be revisited to ensure they remain 'fit for purpose' and drive the required improvements.

We will report the outcome of our work on the Trust's arrangements in our commentary on those arrangements within the Auditor's Annual Report. Our audit completion certificate will set out any further matters which we are required to report by exception.

## **Responsibilities of the Accounting Officer**

The Chief Executive as Accounting Officer is responsible for putting in place proper arrangements to secure economy, efficiency and effectiveness in the Trust's use of resources, to ensure proper stewardship and governance, and to review regularly the adequacy and effectiveness of these arrangements.

# Auditor's responsibilities for the review of arrangements for securing economy, efficiency and effectiveness in the use of resources

We are required by Schedule 10(1) of the National Health Service Act 2006 to satisfy ourselves that the Trust has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources. We are not required to consider, nor have we considered, whether all aspects of the Trust's arrangements for securing economy, efficiency and effectiveness in its use of resources are operating effectively.

We have undertaken our work in accordance with the Code of Audit Practice, having regard to the guidance issued by the Comptroller and Auditor General in January 2023.

## Report on other legal and regulatory requirements

## Opinion on other matters prescribed by the Code of Audit Practice

In our opinion:

- the parts of the Annual Remuneration Report subject to audit have been properly prepared in accordance with the requirements of the NHS Foundation Trust Annual Reporting Manual 2022/23; and
- the other information published together with the audited financial statements in the Annual Report for the financial year for which the financial statements are prepared is consistent with the financial statements.

## Matters on which we are required to report by exception under the Code of Audit Practice

We are required to report to you if:

- in our opinion the Annual Governance Statement does not comply with the NHS Foundation Trust Annual Reporting Manual 2022/23; or
- the Annual Governance Statement is misleading or is not consistent with our knowledge of the Trust and Group and other information of which we are aware from our audit of the financial statements; or
- we refer a matter to the regulator under Schedule 10(6) of the National Health Service Act 2006; or
- we issue a report in the public interest under Schedule 10(3) of the National Health Service Act 2006.

We have nothing to report in respect of these matters.

## Use of the audit report

This report is made solely to the Council of Governors of South Tees Hospitals NHS Foundation Trust as a body in accordance with Schedule 10(4) of the National Health Service Act 2006. Our audit work has been undertaken so that we might state to the Council of Governors of the Trust those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Council of Governors of the Trust as a body for our audit work, for this report, or for the opinions we have formed.

## Delay in certification of completion of the audit

We cannot formally conclude the audit and issue an audit certificate until we have completed the work necessary to satisfy ourselves that the Trust has made proper arrangements for securing economy, efficiency and effectiveness is its use of resources.

James Collins (Jul 26, 2023 12:34 GMT+1)

James Collins, Key Audit Partner For and on behalf of Mazars LLP

The Corner Bank Chambers 26 Mosley Street Newcastle upon Tyne NE1 1DF

26 July 2023

## Audit Completion Certificate issued to the Council of Governors of South Tees Hospitals NHS Foundation Trust for the year ended 31 March 2023

In our auditor's report dated 26 July 2023 we explained that the audit could not be formally concluded until we had completed the work necessary to satisfy ourselves that the Trust has made proper arrangements for securing economy, efficiency and effectiveness is its use of resources.

This work has now been completed.

No matters have come to our attention since 26 July 2023 that would have a material impact on the financial statements on which we gave our unqualified opinion.

# The Trust's arrangements for securing economy, efficiency and effectiveness in its use of resources

We are required to report to you if, in our opinion, we are not satisfied that the Trust has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources for the year ended 31 March 2023.

In our auditor's report dated 26 July 2023 we reported that we had identified a significant weakness in the Trust's arrangements for the year ended 31 March 2023. On the basis of our work, having regard to the guidance issued by the Comptroller and Auditor General in January 2023, we have no further matters to report in this respect.

## Certificate

We certify that we have completed the audit of South Tees Hospitals NHS Foundation Trust in accordance with the requirements of chapter 5 of part 2 of the National Health Service Act 2006 and the Code of Audit Practice.

James Collins, Key Audit Partner For and on behalf of Mazars LLP

## NOTES TO THE ACCOUNTS

## 1. Accounting policies

NHS England has directed that the accounts of NHS Foundation Trusts shall meet the accounting requirements of the Department of Health and Social Care Group Accounting Manual (DHSC GAM), which shall be agreed with HM Treasury and the Secretary of State. Consequently, the following accounts have been prepared in accordance with the DHSC GAM 2022/23 issued by the Department of Health and Social Care. The accounting policies contained in that manual follow International Financial Reporting Standards (IFRS) and HM Treasury's Financial Reporting Manual to the extent that they are meaningful and appropriate to NHS Foundation Trusts, as determined by HM Treasury, which is advised by the Financial Reporting Advisory Board. Where the DHSC GAM permits a choice of accounting policy, the accounting policy which is judged to be most appropriate to the particular circumstances of the Trust for the purpose of giving a true and fair view has been selected. The particular policies adopted by the Trust are described below. They have been applied consistently during the financial year when dealing with items considered material in relation to the accounts.

#### 1.1 Accounting convention

These accounts have been prepared under the historical cost convention modified to account for the revaluation of property, plant and equipment, intangible assets, inventories and certain financial assets and financial liabilities.

#### 1.2 Basis of consolidation

#### **NHS Charitable Fund**

The Trust is the corporate trustee to South Tees Hospitals Charity and Associated Funds which is registered with the Charity Commission, registration number 1056061. The Trust has assessed its relationship to the charitable fund and determined it to be a subsidiary as the Trust has the power to govern the financial and operating policies of the charitable fund to obtain benefits from its activities for the Trust, its patients and its staff.

The charitable fund's statutory accounts are prepared to 31 March and in accordance with the UK Charities Statement of Recommended Practice (SORP) which is based on UK Financial Reporting Standard (FRS) 102. On consolidation, adjustments have been made to the charity's income, expenditure, assets and liabilities to:

- recognise and measure them in accordance with the Trust's accounting policies; and
- eliminate in full all intra-group transactions and balances.

#### **1.2.1** Alignment to accounting policies

The accounting policies and accounts of the charitable fund have been reviewed and are consistent with those of the Trust apart from the charitable fund's accounting policies on funds and investments. Details of the accounting policies that are different and have been aligned to those of the Trust are outlined below:

#### Fund balances

Funds held by the charitable fund can be both restricted and un-restricted. Donations come in for specific funds and each fund has its own objectives/purpose. If a general donation is made and no specific fund is identified then the monies will be paid into the General Purpose Fund, which is used to benefit patients and staff of the Group and Trust. Funds specific to wards or departments are held as un-restricted designated funds. Legacies and donations received for a specific purpose or 'trust' are recorded and accounted for as restricted funds.

#### Investments

Investments are stated at fair value as at the balance sheet date. The Consolidated Statement of Financial Position includes the net gains and losses arising on revaluation and disposals throughout the year.

Further information covering the nature and value of the consolidation of the charitable fund is included in Note 12 to the Accounts.

### Notes to the Accounts - 1. Accounting Policies (Continued)

#### **1.2.1** Alignment to accounting policies (continued)

### Other subsidiaries

Subsidiary entities are those over which the Trust is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The income, expenses, assets, liabilities, equity and reserves of subsidiaries are consolidated in full into the appropriate financial statement lines. The capital and reserves attributable to minority interests are included as a separate item in the Statement of Financial Position.

The Trust formed 2 subsidiaries, the South Tees Institute of Learning, Research and Innovation LLP and South Tees Healthcare Management Limited. The financial year end of both companies is 31 March. Operations within South Tees Institute of Learning, Research and Innovation LLP are currently dormant, there have been no transactions within this company in 2022/23 and the company has not been consolidated on the basis of materiality.

#### South Tees Healthcare Management Limited

This company started operations on 6 October 2019 and the financial statements for the year to 31 March 2023 are consolidated in these accounts. The subsidiary's accounting policies are aligned with the Trust and the amounts included have been adjusted during consolidation with inter-entity balances and transactions eliminated on full on consolidation.

## 1.3 Critical accounting judgements and key sources of estimation in applying the Trust's accounting policies

In the application of the Group and Trust's accounting policies, management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from those estimates and the estimates and underlying assumptions are continually reviewed. Revisions to accounting estimates are recognised in the period in which the estimate is revised. The estimates and assumptions that have a significant risk of causing a material adjustment to the accounts are highlighted below:

a) Asset valuation and indices - the valuation of land and buildings is based on building cost indices and location factors provided by and used by Cushman and Wakefield in their valuation work. The valuation at 31 March 2023 amounted to £183.3 million. The indices are based on an indication of trend of accepted tender prices within the construction industry as applied to the Public Sector.

b) Asset lives - lives were last reviewed by Cushman and Wakefield as at 1 April 2019 and will be reviewed again in 2023/24.

The judgements that have a significant risk of causing a material adjustment to the accounts are highlighted below:

a) Basis of PP&E valuation - Specialised property is valued at depreciated replacement cost. The cost of VAT has been excluded from the full trust estate specialised property valuations from 1 April 2014. The Trust estate is predominantly PFI assets. This significant management judgement was made on the basis that:

(i) the majority of the James Cook Hospital is currently under a PFI arrangement and the Trust recovers the VAT on the Unitary Payment. When the Trust recognised the property as an asset in 2009/10 in its first IFRS-based accounts it appropriately excluded VAT from the initial measurement of Fair Value.

(ii) The majority of non-PFI assets relate to the Friarage Hospital, which transferred to the Trust in 2006. The Friarage Hospital would have formed part of the PFI development if it had been part of the Trusts assets at the date of the development.

(iii) The Trust considers that when, in the future, it procures a significant replacement of its estate, it would do so through either a PFI arrangement or through a subsidiary undertaking. The Trust would set up the subsidiary or would utilise the subsidiary of North Tees and Hartlepool NHS Foundation Trust to undertake the investment. The Trust has received confirmation that this service can be provided and taken appropriate guidance that the Trust would be able to recover VAT on capital projects.

b) Basis of asset impairments - an assessment is made each year as to whether an asset has suffered an impairment loss.

## South Tees Hospitals NHS Foundation Trust - Accounts for year 2022/23 Notes to the Accounts - 1. Accounting Policies (Continued)

## 1.3 Critical accounting judgements and key sources of estimation in applying the Trust's accounting policies (continued)

c) Private Finance Initiative (PFI) schemes - as part of the South Tees Hospitals PFI scheme, the Group and Trust is required to pay the operator for lifecycle replacement assets (2022/23, £13.2 million). A judgement has been made that payment for the assets is accounted for in line with the operator's model over the life of the scheme. Where there is a variation between the model and the timing of actual asset replacement, the variation is dealt with as a prepayment. The prepayment is reversed at the point when asset replacement occurs. This position will be assessed on an ongoing basis as to whether the prepayment is fully recoverable, a charge is made to revenue or whether it requires impairment.

#### 1.3.1 Going concern

These accounts have been prepared on a going concern basis. The financial reporting framework applicable to NHS bodies, derived from the HM Treasury Financial Reporting Manual, defines that the anticipated continued provision of the entity's services in the public sector is normally sufficient evidence of going concern. The directors have a reasonable expectation that this will continue to be the case and the financial statements have been prepared on a going concern basis.

#### Notes to the Accounts - 1. Accounting Policies (Continued)

#### **1.3.2** Key sources of estimation uncertainty

On 31 March 2023 Land and Buildings were revalued (£183.3 million) using the Modern Equivalent Valuation methodology by Cushman and Wakefield (who is an appropriately qualified member of the Royal Institute of Chartered Surveyors). From 1 April 2014 these valuations did not include VAT(Note 1.3).

#### 1.4 Income

Where income is derived from contracts with customers, it is accounted for under IFRS 15. The GAM expands the definition of a contract to include legislation and regulations which enables an entity to receive cash or another financial asset that is not classified as a tax by the Office of National Statistics (ONS).

Income in respect of goods or services provided is recognised when and to the extent that, performance obligations are satisfied and is measured at the fair value of the consideration receivable. At the year end, the Trust accrues income relating to performance obligations satisfied in that year. Where the Trust's entitlement to consideration for those goods or services is unconditional a contract receivable will be recognised. Where consideration received or receivable relates to a performance obligation that is to be satisfied in a future period, the income is deferred and recognised as a contract liability.

The main source of income for the Trust is contracts with commissioners for health care services. In 2022/23 and 2021/22, the majority of the Trust's income from NHS commissioners was in the form of block contract arrangements. The Trust receives block funding from its commissioners where funding envelopes are set at an Integrated Care System/Sustainability and Transformation Partnership level. The related performance obligation is the delivery of healthcare and related services during the period, with the Trust's entitlement to consideration not varying based on the levels of activity performed.

The Trust also receives additional income outside of the block payments to reimburse specific costs incurred and other income top-ups to support the delivery of services. Reimbursement and top-up income is accounted for as variable consideration.

In 2022/23, the Elective Recovery Fund enabled systems to earn income linked to the achievement of elective activity targets including funding any increased use of independent sector capacity. Income earned by the system was distributed between individual entities by local agreement. Income earned from the fund is accounted for as variable consideration.

The Group and Trust receives income under the NHS Injury Cost Recovery Scheme, designed to reclaim the cost of treating injured individuals to whom personal injury compensation has subsequently been paid e.g. by an insurer. The Group and Trust recognises the income when it receives notification from the Department of Work and Pension's Compensation Recovery Unit that the individual has lodged a compensation claim. The income is measured at the agreed tariff for the treatments provided to the injured individual, less a provision for unsuccessful compensation claims and doubtful debts.

Research and development income is recognised when the conditions attached to the grant are met. Education and training income is recognised either in equal instalments over the financial year or if the income can be identified with specific expenditure, in line with the expenditure.

#### Notes to the Accounts - 1. Accounting Policies (Continued)

#### 1.4 Income (continued)

Income from the sale of non-current assets is recognised only when all material conditions of sale have been met and is measured as the sums under the sale contract.

The value of the benefit received when the Trust accesses funds from the Government's apprenticeship service are recognised as income in accordance with IAS 20, Accounting for Government Grants. Where these funds are paid directly to an accredited training provider, non-cash income and a corresponding non-cash training expense are recognised, both equal to the cost of the training funded.

#### 1.5 Employee benefits

#### 1.5.1 Short-term employee benefits

Salaries, wages and employment-related payments are recognised in the period in which the service is received from employees. The cost of annual leave entitlement earned but not taken by employees at the end of the period is recognised in the accounts to the extent that employees are permitted to carry forward leave into the following period.

#### 1.5.2 Pension costs

#### **NHS Pension Scheme**

Past and present employees are covered by the provisions of the NHS Pensions Scheme. The scheme is an unfunded, defined benefit scheme that covers NHS employers, general practices and other bodies, allowed under the direction of the Secretary of State for Health and Social Care in England and Wales. The scheme is not designed to be run in a way that would enable NHS bodies to identify their share of the underlying scheme assets and liabilities. Therefore, the scheme is accounted for as if it were a defined contribution scheme: the cost to the NHS body of participating in the scheme is taken as equal to the contributions payable to the scheme for the accounting period. Employer's pension cost contributions are charged to operating expenses as and when they become due.

For early retirements, other than those due to ill health, the additional pension liabilities are not funded by the scheme. The full amount of the liability for the additional costs is charged to operating expenses at the time the Group and Trust commits itself to the retirement, regardless of the method of payment.

#### 1.6 Expenditure on other goods and services

Expenditure on goods and services is recognised when, and to the extent that they have been received, and is measured at the fair value of those goods and services. Expenditure is recognised in operating expenses except where it results in the creation of a non-current asset such as property, plant and equipment and inventories unused at the end of the financial year.

#### 1.7 Property, plant and equipment

#### 1.7.1 Recognition

Property, plant and equipment is capitalised if:

• it is held for use in delivering services or for administrative purposes;

• it is probable that future economic benefits will flow to, or service potential will be supplied to, the Group and Trust;

- it is expected to be used for more than one financial year;
- the cost of the item can be measured reliably;
- the item has a cost of at least £5,000; or

• collectively, a number of items have a cost of at least £5,000 and individually have a cost of more than £250, where the assets are functionally interdependent, they had broadly simultaneous purchase dates, are anticipated to have simultaneous disposal dates and are under single managerial control; or

• Items form part of the initial equipping and setting-up cost of a new building, ward or unit, irrespective of their individual or collective cost.

## Notes to the Accounts - 1. Accounting Policies (Continued)

#### 1.7 Property, plant and equipment (continued)

Where a large asset, for example a building, includes a number of components with significant cost and different asset lives, the components are treated as separate assets and depreciated over their own useful economic lives.

#### 1.7.2 Valuation

All property, plant and equipment are measured initially at cost, representing the cost directly attributable to acquiring or constructing the asset and bringing it to the location and condition necessary for it to be capable of operating in the manner intended by management. All assets are measured subsequently at current value. Land and buildings used for the Group and Trust's services or for administrative purposes are stated in the Statement of Financial Position at their re-valued amounts, being the current value at the date of revaluation less any subsequent accumulated depreciation and impairment losses. Revaluations are performed with sufficient regularity to ensure that carrying amounts are not materially different from those that would be determined at the end of the reporting period. Current values are determined as follows:

- Land and non-specialised buildings (dwellings) market value for existing use;
- Specialised buildings depreciated replacement cost; or
- Plant and machinery, transport, IT and furniture fair value or cost.

A standard approach to depreciated replacement cost valuations has been adopted based on HM Treasury guidance and the concept of Modern Equivalent Asset (MEA) Valuations. The valuation included in the Statement of Financial Position at 31 March 2023 is based on an alternative site MEA valuation, undertaken specifically in accordance with the HM Treasury guidance which states that such valuations are an option if the Group and Trust's service requirements can be met from the alternative site. The valuation has been adjusted from 1 April 2014 to exclude VAT in line with existing VAT regulations on recovery from the cost of construction (in line with the existing PFI arrangement on the

Properties in the course of construction for service or administration purposes are carried at cost, less any impairment loss. Cost includes professional fees and, where capitalised in accordance with IAS 23, borrowings costs. Assets are re-valued and depreciation commences when they are brought into use.

Professional valuations are carried out by Cushman and Wakefield. The valuations are carried out in accordance with the Royal Institute of Chartered Surveyors (RICS) Appraisal and Valuation Manual in so far as these terms are consistent with the agreed requirements of the Department of Health and HM Treasury. Asset lives were reviewed by Cushman and Wakefield as at 1 April 2019.

#### 1.7.3 Subsequent expenditure

Subsequent expenditure relating to an item of property, plant and equipment is recognised as an increase in the carrying amount of the asset when it is probable that additional future economic benefits or service potential deriving from the cost incurred to replace a component will flow to the Trust or Group and the cost of the item can be determined reliably. Where a component of an asset is replaced, the cost of the replacement is capitalised if it meets the criteria for recognition above. The carrying amount of the part replaced is written off. Other expenditure that does not generate additional future economic benefits or service potential, such as repairs and maintenance, is charged to the Statement of Comprehensive Income in the period in which it is incurred.

#### 1.7.4 Depreciation

Freehold land is considered to have an infinite life and is not depreciated. Otherwise, depreciation is charged to write off the costs or valuation of property, plant and equipment on a straight line basis over their remaining useful economic lives, in a manner consistent with the consumption of economic or service delivery benefits.

The estimated useful life of an asset is the period over which the Group and Trust expects to obtain economic benefits or service potential from the asset. This is specific to the Group and Trust and may be shorter than the physical life of the asset itself. Estimated useful lives and residual values are reviewed each year end, with the effect of any changes recognised on a prospective basis. Assets held under leases are depreciated over the shorter of their estimated useful lives or the lease term. See Note 8.4 for further information on asset lives.

#### Notes to the Accounts - 1. Accounting Policies (Continued)

#### 1.7 **Property, plant and equipment (continued)**

#### 1.7.5 Revaluation gains and losses

Increases in asset values arising from revaluations are recognised in the revaluation reserve, except where, and to the extent that, they reverse a revaluation impairment previously recognised in operating expenses, in which case they are recognised in operating income.

Revaluation losses are charged to the revaluation reserve to the extent that there is an available balance for the asset concerned and, thereafter, are charged to operating expenses.

Gains and losses recognised in the revaluation reserve are reported in the Statement of Comprehensive Income as an item of "other comprehensive income".

#### 1.7.6 Impairments

In accordance with the Department of Health group Accounting Manual, impairments that are due to a loss of economic benefits or service potential in the asset are charged to operating expenses. A compensating transfer is made from the revaluation reserve to the income and expenditure reserve of an amount equal to the lower of (i) the impairment charged to operating expenses; and (ii) the balance in the revaluation reserve attributable to that asset before the impairment.

An impairment arising from a loss of economic benefit or service potential is reversed when, and to the extent that, the circumstances that gave rise to the loss is reversed. Reversals are recognised in operating expenses to the extent that the asset is restored to the carrying amount it would have had if the impairment had never been recognised. Any remaining reversal is recognised in the revaluation reserve. Where, at the time of the original impairment, a transfer was made from the revaluation reserve to the income and expenditure reserve, an amount is transferred back to the revaluation reserve when the impairment reversal is recognised.

Other impairments are treated as revaluation losses. Reversals of 'other impairments' are treated as revaluation gains.

#### 1.8 Intangible assets

#### 1.8.1 Recognition

Intangible assets are non-monetary assets without physical substance, which are capable of being sold separately from the rest of the Group and Trust's business or which arise from contractual or other legal rights. They are recognised only when it is probable that future economic benefits will flow to, or service potential be provided to, the Group and Trust; where the cost of the asset can be measured reliably, and where the cost is at least £5,000 and where the asset has a life of 1 year or more.

#### 1.8.2 Software

Software which is integral to the operation of hardware e.g. an operating system, is capitalised as part of the relevant item of property, plant and equipment. Software which is not integral to the operation of hardware e.g. application software, is capitalised as an intangible asset.

#### 1.8.3 Measurement

Intangible assets are recognised initially at cost, comprising all directly attributable costs needed to create, produce and prepare the asset to the point that it is capable of operating in the manner intended by management.

Intangible assets are subsequently measured at current value in existing use. Where no active market exists, intangible assets are valued at the lower of depreciated replacement cost and the value in use where the asset is income generating.

Revaluation gains and losses and impairments are treated in the same manner as for property, plant and equipment.

An intangible asset which is surplus with no plan to bring it back into use is valued at fair value under IFRS 13, if it does not meet the requirements of IAS 40 or IFRS 5.

#### Notes to the Accounts - 1. Accounting Policies (Continued)

#### 1.8 Intangible assets (continued)

#### 1.8.4 Amortisation

Intangible assets are amortised over their expected useful economic lives in a manner consistent with the consumption of economic or service delivery benefits.

#### 1.9 Donated, government grant and other funded assets

Donated and grant funded non-current assets are capitalised at their fair value on receipt. These are valued, depreciated and impaired as described above for purchased assets. The donation/grant is credited to income at the same time that the asset is capitalised, unless the donor has imposed a condition that the future economic benefits embodied in the grant/donation are to be consumed in a manner specified by the donor, in which case, the donation/grant is deferred within liabilities and is carried forward to future financial years to the extent that the condition has not yet been met. The donated and grant funded assets are subsequently accounted for in the same manner as other items of property, plant and equipment.

This includes assets donated to the Trust by the Department of Health and Social Care as part of the response to the Coronavirus pandemic. As defined in the GAM, the Trust applies the principle of donated asset accounting to assets that the Trust controls and is obtaining economic benefits from at the end of the year end.

#### 1.10 Revenue government and other grants

Government grants are grants from government bodies other than revenue from NHS bodies for the provision of services. Grants from the Department of Health and Social Care, including those from the Big Lottery Fund, are accounted for as Government Grants. Where the Government Grant is used to fund revenue expenditure, it is taken to the Statement of Comprehensive Income to match the expenditure.

#### 1.11 Leases

A lease is a contract or part of a contract that conveys the right to use an asset for a period of time in exchange for consideration.

IFRS 16 Leases is effective across the public sector from 1 April 2022. The transition to IFRS 16 has been completed in accordance with paragraph C5 (b) of the Standard, applying IFRS 16 requirements retrospectively recognising the cumulative effects at the date of initial application. In the transition to IFRS 16 the Trust has applied the practical expedients offered in the Standard with the measurement requirements not applied to leases with a term of 12 months or less under paragraph 5 (a) of IFRS 16. In addition, the measurement requirements under IFRS 16 are not applied to leases where the underlying asset is of a low value which are identified as those assets of a value of less than £5,000, excluding any irrecoverable VAT, under paragraph 5 (b) of IFRS 16. The Trust has applied IFRS 16 to lease like arrangements entered into with other public sector entities that are in substance akin to an enforceable contract, that in their formal legal form may not be enforceable. Prior to accounting for such arrangements under IFRS 16 the Trust has assessed that in all other respects these arrangements meet the definition of a lease under the Standard. This has included existing operating leases, former finance leases under IAS17 and covered lease arrangements involving property and leased cars. Leases entered into on or after the 1st April 2022 have been assessed under the requirements of IFRS 16.

At the commencement date for the leasing arrangement a lessee shall recognise a right of use asset and corresponding lease liability. The Trust has employed a revaluation model for the subsequent measurement of its right of use assets with cost not considered to be an appropriate proxy for current value in existing use or fair value in line with the accounting policy for owned assets. Where consideration exchanged is identified as being market value, cost is considered to be an appropriate proxy to value the right of use asset

Lease payments are apportioned between finance charges and repayment of the principal. Finance charges are recognised in the Statement of Comprehensive Income. Irrecoverable VAT is expensed in the period to which it relates and therefore not included in the measurement of the lease liability and consequently the value of the right of use asset.

The incremental borrowing rate of 0.95% has been applied to the lease liabilities recognised at the date of initial application of IFRS 16. Where changes in future lease payments result from a change in an index or rate or rent review, the lease liabilities are remeasured using an unchanged discount rate.

#### Notes to the Accounts - 1. Accounting Policies (Continued)

#### 1.12 Private Finance Initiative (PFI) transactions

HM Treasury has determined that government bodies shall account for infrastructure PFI schemes where the government body controls the use of the infrastructure and the residual interest in the infrastructure at the end of the arrangement as service concession arrangements, as interpreted in HM Treasury's Financial Reporting Manual and following the principles of the requirements of IFRIC 12. The PFI asset is recognised as an item of property, plant and equipment at its fair value together with a financial liability to pay for it in accordance with IAS 17.

The annual unitary payment is separated into the following component parts, using appropriate estimation techniques where necessary:

- a) Payment for the fair value of services received;
- b) Payment for the PFI asset, including finance costs; and
- c) Payment for the replacement of components of the asset during the contract 'lifecycle

The service charge is recognised in operating expenses and the finance cost is charged to Finance Costs in the Statement of Comprehensive Income.

#### 1.12.1 Services received

The fair value of services received in the year is recorded under the relevant expenditure headings within 'operating expenses'.

#### 1.12.2 PFI Asset

The PFI assets are recognised as property, plant and equipment, when they come into use. The assets are measured initially at fair value in accordance with the principles of IAS 17. Subsequent measurements to current value are kept up to date in accordance with the Group and Trust's approach for each relevant class of asset in line with the principles of IAS 16.

#### 1.12.3 PFI liability

A PFI liability is recognised at the same time as the PFI assets are recognised. It is measured initially at the same amount as the fair value of the PFI assets and is subsequently measured as a finance lease liability in accordance with IAS 17.

An annual finance cost is calculated by applying the implicit interest rate in the lease to the opening lease liability for the period, and is charged to 'Finance Costs' within the Statement of Comprehensive The element of the annual unitary payment that is allocated as a finance lease rental is applied to meet the annual finance cost and to repay the lease liability over the contract term.

An element of the annual unitary payment increase due to cumulative indexation is allocated to the finance lease. In accordance with IAS 17, this amount is not included in the minimum lease payments, but is instead treated as contingent rent and is expensed as incurred. In substance, this amount is a finance cost in respect of the liability and the expense is presented as a contingent finance cost in the Statement of Comprehensive Income.

#### 1.12.4 Lifecycle replacement

Components of the asset replaced by the operator during the contract ('lifecycle replacement') are capitalised where they meet the Group and Trust's criteria for capital expenditure. They are capitalised at the time they are provided by the operator and are measured initially at their fair value.

The element of the annual unitary payment allocated to lifecycle replacement is pre-determined for each year of the contract from the operator's planned programme of lifecycle replacement. Where the lifecycle component is provided earlier or later than expected, a liability or prepayment will be recognised.

Where the fair value of the lifecycle component is less than the amount determined in the contract, the difference is recognised as an expense when the replacement is provided. If the fair value is greater than the amount determined in the contract, the difference is treated as a 'free' asset and a deferred income balance is recognised. The deferred income is released to operating income over the shorter of the remaining contract period or the useful economic life of the replacement component.

#### Notes to the Accounts - 1. Accounting Policies (Continued)

### 1.12 Private Finance Initiative (PFI) transactions (continued)

#### 1.12.5 Assets contributed by the Trust to the operator for use in the scheme

Assets contributed for use in the scheme continue to be recognised as items of property, plant and equipment in the Group Statement of Financial Position.

#### 1.12.6 Other assets contributed by the Trust to the operator

Assets contributed (e.g. cash payments, surplus property) by the Group and Trust to the operator before the asset is brought into use, which are intended to defray the operator's capital costs, were recognised initially as prepayments during the construction phase of the contract. Subsequently, when the asset was made available to the Trust, the prepayment was treated as an initial payment towards the finance lease liability and was set against the carrying value of the liability.

#### 1.13 Inventories

Inventories are valued at the lower of cost or net realisable value. Provision is made for obsolete, slow moving and defective stock whenever evidence exists that a provision is required.

In 2021/22 and 2022/23, the Trust received inventories including personal protective equipment from the Department of Health and Social Care at nil cost. In line with the GAM and applying the principles of the IFRS Conceptual Framework, the Trust has accounted for the receipt of these inventories at a deemed cost, reflecting the best available approximation of an imputed market value for the transaction based on the cost of acquisition by the Department.

#### 1.14 Cash and cash equivalents

Cash is cash in hand and deposits with any financial institution repayable without penalty on notice of not more than 24 hours. Cash equivalents are investments that mature in 3 months or less from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value. Cash and cash equivalents are recorded at current values.

## 1.15 Provisions

Provisions are recognised when the Group and Trust has a present legal or constructive obligation as a result of a past event, it is probable that the Group and Trust will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. The amount recognised as a provision in the Statement of Financial Position is the best estimate of the expenditure required to settle the obligation, taking into account the risks and uncertainties. Where the effect of the time value of money is significant, the estimated risk adjusted cash flows required to settle the obligation are discounted using 3 real time HM Treasury discount rates that range from 3.27% (2021/22, 0.47%) in the short term to 3.00% (2021/22, 0.66%) for long term cash flow expectations. This excludes early retirement provisions and injury benefit provisions which both use the HM Treasury's pension discount rate of 1.70% in real terms (2021/22, minus 1.30%).

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognised as an asset if it is virtually certain that reimbursements will be received and the amount of the receivable can be measured reliably.

#### 1.15.1 Clinical negligence costs

NHS Resolution operates a risk pooling scheme under which the Group and Trust pays an annual contribution and NHS Resolution, in return, settles all clinical negligence claims. The contribution is charged to expenditure. Although NHS Resolution are administratively responsible for all clinical negligence cases, the legal liability remains with the Group and Trust. The total value of clinical negligence provisions carried by NHS Resolution on behalf of the Group and Trust is disclosed at Note 22 but is not recognised in the Group and Trust's accounts. Since financial responsibility for clinical negligence cases transferred to NHS Resolution, the only charge to operating expenditure in relation to clinical negligence in 2022/23 relates to the contribution to the Clinical Negligence Scheme for Trusts.

### Notes to the Accounts - 1. Accounting Policies (Continued)

#### 1.15 Provisions (continued)

#### 1.15.2 Non-clinical risk pooling

The Group and Trust participates in the Property Expenses Scheme and the Liabilities to Third Parties Scheme. Both are risk pooling schemes under which the Group and Trust pays an annual contribution to NHS Resolution and, in return, receives assistance with the costs of claims arising. The annual membership contributions, and any excesses payable in respect of particular claims are charged to operating expenses as and when they become due.

#### 1.16 Climate Change Levy

Expenditure on the Climate Change Levy is recognised in the Statement of Comprehensive Income as incurred, based on the prevailing chargeable rates for energy consumption.

#### 1.17 Financial Instruments and financial liabilities

#### 1.17.1 Recognition

Financial assets and financial liabilities which arise from contracts for the purchase or sale of non-financial items, which are entered into in accordance with the Group's normal purchase, sale or usage requirements, are recognised when the Group becomes party to the financial instrument contract or when performance occurs i.e. when receipt or delivery of the goods or services is made.

Financial assets are initially recognised at fair value plus or minus directly attributable transaction costs for financial assets not measured at fair value through profit or loss. Fair value is taken as the transaction price, or otherwise determined by reference to quoted market prices, where possible, or by valuation

Financial assets or financial liabilities in respect of assets acquired or disposed of through leases are recognised and measured in accordance with the accounting policy for leases are described in policy

#### 1.17.2 De-recognition

All financial assets are de-recognised when the rights to receive cash flows from the assets have expired or the Group has transferred substantially all of the risks and rewards of ownership. Financial liabilities are de-recognised when the obligation is discharged, cancelled or expires.

#### 1.17.3 Classification and measurement

The Group currently holds financial assets at fair value through profit and loss in the form of Investments. Other financial assets are held at amortised costs. The Group does not hold any financial liabilities 'at fair value through profit and loss' that would require a fair value calculation and adjustment to the income statement.

#### 1.17.4 Financial Assets

Receivables are non-derivative financial assets which are included in current and non-current assets. After initial recognition, they are measured at amortised cost, less any impairment. The Group's NHS and non-NHS receivables balances, accrued income and cash and cash equivalents have been classified as financial instruments and further information is available in Note 23.

#### 1.17.5 Financial liabilities

All other financial liabilities, after initial recognition, are measured at amortised cost using the effective interest method. The effective interest rate is the rate that discounts exactly estimated future cash payments through the expected life of the financial liability or, when appropriate, a shorter period, to the net carrying amount of the financial liability. They are included in current liabilities except for amounts payable more than 12 months after the Statement of Financial Position date, which are classified as long-term liabilities. The Group does hold instruments that would fall into this category in the form of leases and the PFI Scheme (see Accounting Policy 1.11 and 1.12 for further information). The Group's outstanding NHS and non-NHS payables balances are classified as financial instruments and further information is available

Interest on financial liabilities carried at amortised cost is calculated using the effective interest method and charged to Finance Costs. Interest on financial liabilities taken out to finance property, plant and equipment is not capitalised as part of the cost of those assets.

#### Notes to the Accounts - 1. Accounting Policies (Continued)

#### 1.17.6 Impairment of financial assets

For all financial assets measured at amortised cost including lease receivables, contract receivables and contract assets or assets measured at fair value through other comprehensive income, the Trust recognises an allowance for expected credit losses.

The Trust has adopted the simplified approach to impairment, in accordance with IFRS 9, and measures the loss allowance for trade receivables at an amount equal to lifetime expected credit losses. For other financial assets, the loss allowance is measured at an amount equal to lifetime expected credit losses if the credit risk on the financial instrument has increased significantly since initial recognition, and otherwise at an amount equal to 12-month expected credit losses. The loss is recognised in the Statement of Comprehensive Income and the carrying amount of the asset is reduced through the creation of a provision for impairment of receivables.

For financial assets that have become credit impaired since initial recognition, expected credit losses at the reporting date are measured as the difference between the asset's gross carrying amount and the present value of estimated future cash flows discounted at the financial asset's original effective interest rate. Expected losses are charged to operating expenditure within the Statement of Comprehensive Income and reduce the net carrying value of the financial asset in the Statement of Financial Position.

#### 1.18 Value Added Tax

Most of the activities of the Group are outside the scope of VAT and, in general, output tax does not apply and input tax on purchases is not recoverable. Irrecoverable VAT is charged to the relevant expenditure category or included in the capitalised purchase cost of fixed assets. Where output tax is charged or input VAT is recoverable, the amounts are stated net of VAT.

#### 1.19 Foreign currencies

The Group's functional currency and presentational currency is sterling. A transaction which is denominated in a foreign currency is translated into sterling at the spot exchange rate ruling on the date of the transaction. At the end of the reporting period, monetary items denominated in foreign currencies are retranslated at the spot exchange rate on 31 March. Resulting exchange gains and losses for either of these are recognised in the Group's income or expense in the period in which they arise.

#### 1.20 Third party assets

Assets belonging to third parties (such as money held on behalf of patients) are not recognised in the accounts since the Group and Trust has no beneficial interest in them.

#### 1.21 Public Dividend Capital (PDC) and PDC dividend

Public dividend capital (PDC) is a type of public sector equity finance based on the excess of assets over liabilities at the time of establishment of the predecessor NHS Trust. At any time the Secretary of State can issue new PDC to, and require repayments of PDC from, the Trust. PDC is recorded at the value received. HM Treasury has determined that PDC is not a financial instrument within the meaning of IAS 32 and 39.

An annual charge, reflecting the cost of capital utilised by the Group and Trust, is payable to the Department of Health and Social Care as PDC dividend. The charge is calculated at the real rate set by HM Treasury (currently 3.5%) on the average relevant net assets of the Trust during the financial year. Relevant net assets are calculated as the value of all assets less the value of all liabilities, except for donated assets, average daily cash balances held with the Government Banking Services (GBS), excluding cash balances held in GBS accounts that relate to a short-term working capital facility, assets under construction for nationally directed schemes and any PDC dividend balance receivable or payable. In accordance with the requirements laid down by the Department of Health and Social Care, the dividend for the year is calculated on the actual average relevant net assets as set out in the 'pre-audit' version of the annual accounts. The dividend thus calculated is not revised should any adjustment to net assets occur as a result of the audit of the annual accounts.

#### Notes to the Accounts - 1. Accounting Policies (Continued)

#### 1.22 Losses and Special Payments

Losses and special payments are items that Parliament would not have contemplated when it agreed funds for the health service or passed legislation. By their nature they are items that ideally should not arise. They are therefore subject to special control procedures compared with the generality of payments. They are divided into different categories, which govern the way that individual cases are handled.

Losses and special payments are charged to the relevant functional headings in expenditure on an accruals basis, including losses which would have been made good through insurance cover had the Trust not been bearing their own risks (with insurance premiums then being included as normal revenue expenditure). However, the note on losses and special payments is compiled directly from the losses and compensations register which reports amounts on an accruals basis with the exception of provisions for future losses.

#### 1.23 Accounting standards that have been issued but have not yet been adopted

The DHSC GAM does not require the following IFRS Standards and interpretations to be adopted in 2022/23. These Standards are still subject to HM Treasury FReM adoption.

• IFRS 14 Regulatory Deferral Accounts (not EU endorsed and applies to first time adopters of IFRS after 1 January 2016. Therefore, not applicable to DHSC group bodies);

• IFRS 17 Insurance Contracts (application required for accounting periods beginning on or after 1 January 2021. The standard is not yet adopted by the FReM which is expected to be from April 2025):

• IFRS 16 PFI contracts (this standard has not yet been adopted by the FReM).

In relation to the above the Trust has not been in a position to assess the expected impact of the introduction of this standard as limited detailed information is available at this time.

#### 1.24 Accounting standards issued that have been adopted early

There have not been any accounting standards issued with an effective date of 1 April 2023, that have been adopted early.

#### 1.25 Segmental reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker, who makes the strategic decisions, is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board.

#### 2. Operating segments

The Group received £803.840 million under contracts with commissioners during the year (£741.021 million in 2021/22) from Integrated Care Boards, Clinical Commissioning Groups and NHS England, which equated to 93% (93% in 2021/22) of total Trust income. There were no other significant external customers amounting to more than 8% of total income. Commissioner funding was provided under a block contract arrangement during 2022/23. The previous Acute split by service has been updated in the following disclosures.

The Group has reviewed the process of reporting the financial performance at a trust wide level to the Board. Only limited divisional information is reported and this is similar in the nature of the products and services provided, the nature of the production process, the type of class of customer for the product or service, the method used to provide our services and the nature of the regulatory environment.

The Board is the chief decision making body within the Group and receives monthly updates on the financial position. These reports provide a global update on the Group's actual position compared to plan on expenditure, income, current surplus/deficit and progress on capital investment. The current position on cash balances is reported in conjunction with an updated risk rating. The figures reported to the Board are consistent with those included within these accounts.

On the basis of the information provided to the Board it has been determined that there is only one operating segment, that of healthcare.

#### 3. Operating income

\* Further information on income is available within the Accounting Policies, Note 1.4.

\*\* Other income includes consideration arising from car parking charges £2.237 million (2021/22 £0.947 million), income in respect of recovered staff costs £0.534 million (2021/22 £0.510 million), clinical excellence awards £1.156 million (2021/22 £1.445 million), staff accommodation £1.190 million (2021/22 £1.139 million), clinical tests £2.059 million (2021/22 £2.147 million) and creche services £0.502 million (2021/22 £0.659 million). The Trust has not received an individual transaction within fees and charges greater than £1.0 million in the financial year.

Under the Terms of Authorisation the Group's total activity income from Commissioner Requested Services amounts to £750.789 million (2021/22 £712.934 million). All other activity income relates to Non-Commissioner Requested Services.

3.2 Income from activities by source	2022/23 £000	2021/22 £000
Group and Trust		
Integrated Care Boards, Clinical Commissioning Groups and NHS England	802,181	737,168
Non-NHS - overseas patients (non-reciprocal) (*)	175	2
Non-NHS - private patients	791	931
Non-NHS - other	26	82
NHS Injury Scheme	1,293	2,102
Total income from activities	804,466	740,285

(\*) Cash payments received in year from overseas visitors, where patients are charged directly by the Trust, and relating to invoices raised in the current and prior years amounted to £0.129 million (£0.041 million in 2021/22). Additions to the provision for the impairment of receivables amounted to £0.126 million (£0.030 million increase in 2021/22) and the Trust did not write off any charges in year (no write offs in 2021/22).

Injury cost recovery is subject to a charge for credit loss allowances on receivables of 24.86% (2021/22, 23.76%) to reflect expected rates of collection.

Redundancy and other departure costs have been paid in accordance with NHS Agenda for Change terms and conditions. Exit costs are accounted for in full in the year of departure. Where the Group has agreed to early retirements, the additional costs are met by the Group and not by the NHS Pension Scheme. III health retirement costs are met by the NHS Pension scheme and are not included in the table. There were no departures in 2022/23 or in 2021/22 where special payments were made.

Further information on exit packages is included in the Remuneration statements in the Annual Report. There were no non-contractual payments requiring HMT approval in 2022/23 or 2021/22.

## 5. Employee expenses and numbers (continued)

## 5.5 Retirements due to ill-health

During 2022/23 there were 8 (2021/22, 8) early retirements from South Tees Hospitals NHS Foundation Trust agreed on the grounds of ill-health. The estimated additional pension liabilities of these ill-health retirements will be £0.957 million (2021/22, £0.533 million). The cost of these ill-health retirements will be borne by the NHS Business Services Authority - Pensions Division.

## 6. Pension costs

Past and present employees are covered by the provisions of the two NHS Pension Schemes. Details of the benefits payable and rules of the Schemes can be found on the NHS Pensions website at www.nhsbsa.nhs.uk/pensions. Both are unfunded defined benefit schemes that cover NHS employers, GP practices and other bodies, allowed under the direction of the Secretary of State for Health and Social Care in England and Wales. They are not designed to be run in a way that would enable NHS bodies to identify their share of the underlying scheme assets and liabilities. Therefore, each scheme is accounted for as if it were a defined contribution scheme: the cost to the NHS body of participating in each scheme is taken as equal to the contributions payable to that scheme for the accounting period.

In order that the defined benefit obligations recognised in the financial statements do not differ materially from those that would be determined at the reporting date by a formal actuarial valuation, the FReM requires that "the period between formal valuations shall be four years, with approximate assessments in intervening years". An outline of these follows:

## a) Accounting valuation

A valuation of scheme liability is carried out annually by the scheme actuary (currently the Government Actuary's Department) as at the end of the reporting period. This utilises an actuarial assessment for the previous accounting period in conjunction with updated membership and financial data for the current reporting period, and is accepted as providing suitably robust figures for financial reporting purposes. The valuation of the scheme liability as at 31 March 2023, is based on valuation data as 31 March 2022, updated to 31 March 2023 with summary global member and accounting data. In undertaking this actuarial assessment, the methodology prescribed in IAS 19, relevant FReM interpretations, and the discount rate prescribed by HM Treasury have also been used.

The latest assessment of the liabilities of the scheme is contained in the report of the scheme actuary, which forms part of the annual NHS Pension Scheme Accounts. These accounts can be viewed on the NHS Pensions website and are published annually. Copies can also be obtained from The Stationery Office.

## b) Full actuarial (funding) valuation

The purpose of this valuation is to assess the level of liability in respect of the benefits due under the schemes (taking into account recent demographic experience), and to recommend contribution rates payable by employees and employers.

The latest actuarial valuation undertaken for the NHS Pension Scheme was completed as at 31 March 2016. The results of this valuation set the employer contribution rate payable from April 2019 to 20.6% of pensionable pay. The actuarial valuation as at 31 March 2020 is currently underway and will set the new employer contribution rate due to be implemented from April 2024.

# 6. Pension costs (continued)

# c) Scheme provisions

The NHS Pension Scheme provided defined benefits, which are summarised below. The list is an illustrative guide only, and is not intended to detail all the benefits provided by the Scheme or the specific conditions that must be met before these benefits can be obtained.

## Annual pensions

The scheme is a "final salary" scheme. Annual pensions are normally based on 1/80th for the 1995 section and the best of the last 3 years pensionable pay for each year of service, and 1/60th for the 2008 section of reckonable pay per year of membership. Members who are practitioners as defined by the Scheme Regulations have their annual pensions based upon total pensionable earnings over the relevant pensionable service.

With effect from 1 April 2008 members can choose to give up some of their annual pension for an additional tax free lump sum, up to a maximum amount permitted under HMRC rules. This new provision is known as "pension commutation".

## Pensions indexation

Annual increases are applied to pension payments at rates defined by the Pensions (Increase) Act 1971, and are based on changes in the Consumer Price Index (CPI) in the twelve months ending 30 September in the previous calendar year.

## III-health retirement

Early payment of a pension, with enhancement, is available to members of the scheme who are permanently incapable of fulfilling their duties effectively through illness or infirmity.

## Early retirements other than ill-health

For early retirements other than those due to ill health the additional pension liabilities are not funded by the scheme. The full amount of the liability for the additional costs is charged to the employer.

## **Death benefits**

A death gratuity of twice their final year's pensionable pay for death in service, and five times their annual pension for death after retirement is payable.

# Additional Voluntary Contributions (AVCs)

Members can purchase additional service in the NHS Scheme and contribute to money purchase AVCs run by the Scheme's approved providers or by other Free Standing Additional Voluntary Contributions (FSAVC) providers.

7. Finance costs

## 8. Property, plant and equipment (continued)

## 8.3 Property, plant and equipment - revaluation

A full revaluation exercise was undertaken during March as at 31 March, 2023 on the Group and Trust's owned land and buildings by Cushman and Wakefield. The exercise was undertaken in accordance with the HM Treasury's Modern Equivalent Asset (MEA) recommendation adjusting the valuation undertaken at 31 March 2022, for movements in building cost indices and location factors since that date.

The exercise undertaken as at 31 March, 2023, identified a net revaluation increase of £16.0 million over the James Cook and Friarage sites. The resulting changes in valuation on both sites are summarised in Note 7.2.

## 8.4 Economic lives of property, plant and equipment

The economic asset lives are as follows:

|                               | Min life<br>Years | Max life<br>Years |
|-------------------------------|-------------------|-------------------|
| Buildings excluding dwellings | 17                | 55                |
| Dwellings                     | 47                | 47                |
| Plant and machinery           | 1                 | 15                |
| Transport equipment           | 7                 | 7                 |
| Information technology        | 5                 | 7                 |
| Furniture and fittings        | 5                 | 7                 |

This represents the current range of asset lives relating to these assets.

## 8.5 Capital management

The Trust's capital programme is approved on an annual basis via the Capital Planning Oversight Group, Senior Leadership Team and Clinical Policy Group with final approval through the Board of Directors. The full plan is included in the Annual Plan submitted to NHS England/Improvement. The revised capital programme for the year amounted to £48.2 million and included essential investment in infrastructure, the estate, medical equipment, Information Technology replacement programmes and lifecycle works under the PFI contract.

## 8.6 Donated assets

There are no restrictions or conditions imposed by the donor on the use of a donated assets reported within the Trust's Statement of Financial Position. The Trust's consolidated charity and other charities contributed towards investment in the estate and gifted equipment to the value of £0.3 million during the year to help deliver patient care. This equipment is held on the Trust's Statement of Financial Position at 31 March 2023.

| Net book value total at 31 March 2022                                                                                | 36,800                            | 215                 | 134                    | 0                      | 0                      | 0                    | 37,149  |

The revaluation exercise was undertaken as at 31 March, 2023, on leased buildings by Cushman and Wakefield. The exercise identified an impairment of £61.7 million over the Trust and Community estate. The resulting changes in valuation are summarised in Note 7.2.

#### 11. Capital commitments

Contracted capital commitments at 31 March not otherwise included in these accounts:

| Group and Trust               | 31 March 2023<br>£000 | 31 March 2022<br>£000 |
|-------------------------------|-----------------------|-----------------------|
| Property, plant and equipment | 1,264                 | 1,778                 |
| Intangible assets             | 1,701                 | 2,216                 |
| Total                         | 2,965                 | 3,994                 |

#### 12. Subsidiaries and consolidation of charitable funds

The Trust's 1 principal subsidiary, South Tees Healthcare Management Limited, and South Tees Hospitals Charity and Associated Funds are included in the consolidation at 31 March 2023. The accounting date of the financial statements for these subsidiaries is in line with the Trust date of 31 March 2023. The South Tees Institute of Learning, Research and Innovation LLP also has a financial year end of 31 March 2023 but the transactions of this company in 2022/23 have not been consolidated on the basis of materiality. Key financial information for the charitable fund and South Tees Healthcare Management Limited are provided as follows:

## South Tees Hospitals Charity and Associated Funds

#### 12.1 Reserves

|                    | 31 March 2023<br>£000 | 31 March 2022<br>£000 |
|--------------------|-----------------------|-----------------------|
| Restricted funds   | 1,103                 | 285                   |
| Unrestricted funds | 5,732                 | 6,210                 |
| Total              | 6,835                 | 6,495                 |

Funds specific to wards, departments or schemes are held as un-restricted designated funds. Legacies and donations received for a specific purpose or 'trust' are recorded and accounted for as restricted funds. Further information covering the nature of the restricted and unrestricted funds is available within Accounting Policy 1.2.

| Income<br>Expenditure                 | 20,596<br>(20,590)                     | 18,328<br>(18,277)    |
| Total                                 | 6                                      | 51                    |
| Corporation Tax                       | 0                                      | (3)                   |
| Net movement in funds                 | 6                                      | 48                    |

## 12.5 Group eliminations of the subsidiary and charitable funds

In 2022/23 on the charity, eliminations consisted of a £0.207 million adjustment to income and expenditure for capital transactions (£0.963 million in 2021/22) and adjustments to working capital amounted to £0.679 million (£1.093 million in 2021/22).

On the subsidiary, intra group eliminations on income and expenditure consisted of a £20.471 million adjustment for drug and rendering recharges and corporate service charges (£18.142 million in 2021/22) and adjustments for working capital amounting to £1.356 million (£3.232 million in 2021/22).

The above summary statements have initially been presented before group eliminations with an explanation to reconcile to the amounts included within the consolidated statements. As per accounting policy 1.2 the accounts of the charitable fund and the subsidiary have been consolidated in full after the elimination of intra group transactions and balances.

## 13. Other investments

The management of the investment portfolio of South Tees Hospitals Charity and Associated Funds was undertaken by CCLA during 2022/23. Cash funds are held outside the portfolio by the fund to deal with short term cash flow issues. The movements in the fund during 2022/23 are detailed in the table below.

|                                                                                              | 31 March 2023<br>£000   | 31 March 2022<br>£000 |                       |                       |

The great majority of trade is with Integrated Care Boards, Clinical Commissioning Groups and NHS England, as commissioners for NHS patient care services. As these NHS bodies are funded by government to buy NHS patient care services, no credit scoring of them is considered necessary.

Following the application of IFRS 15 from 1 April 2018, the Trust's entitlements to consideration for work performed under contracts with customers are shown separately as contract receivables and contract assets. This replaces the previous analysis into trade receivables and accrued income.

## 16. Trade and other receivables (continued)

| 16.2 Allowance for credit losses | 31 March 2023<br>£000 | 31 March 2022<br>£000 |
|----------------------------------|-----------------------|-----------------------|
| Balance at 1 April               | 2,590                 | 2,240                 |
| Utilisation of allowances        | (142)                 | (152)                 |
| Reversal of allowances           | (652)                 | (733)                 |
| Increase in allowance            | 1,310                 | 1,235                 |
| Balance at 31 March              | 3,106                 | 2,590                 |

The allowance relates to outstanding Compensation Recovery Unit debts concerning Road Traffic Accidents (24.86% allowance created on all outstanding debt), and allowances on non-NHS debtors (providing between 10 and 100% dependant on the type of debt) that includes allowances for individual invoices in dispute and in formal recovery. The Group does not hold any collateral in support of these debts.

#### 19. Lease Liabilities

Significant contractual arrangements involving assets have been reviewed to assess compliance with IFRS16. The agreements that included assets in compliance with the standard covered NHS Property agreements, former sale and leaseback of property, IT software and business related car leases. In addition, the Trust holds former finance leases reported under IAS17 that have been reclassified under the standard. These cover agreements incorporating Pathology and medical equipment. The term of these arrangements range from 3 to 20 years in line with the economic use and lives of the individual assets.

At 1 April 2022 as part of the implementation of IFRS16, the Trust recognised a right of use asset and liability to the value of £104.646 million. The minimum lease payments outstanding on the lease agreements amount to £108.176 million and the Present Value of minimum lease payments included on the Group and Trust's Statement of Financial Position amounts to £99.195 million at 31 March 2023. The variance of £8.981 million at 31 March 2023 relates to future finance charges on the agreements. The values disclosed do not include any liabilities relating to the private finance initiative.

(\*) the comparator information at 31 March 2022 is disclosed on a different basis to IFRS16.

Note: the Group and Trust does not offer any leases as a Lessor and does not recover any rental income through such arrangements.

## 20. Private finance Initiative contracts

## 20.1 PFI schemes on Statement of Financial Position

The scheme was for the development of the James Cook University Hospital (JCUH) site resulting in the rationalisation of four existing sites into one. Services at Middlesbrough General Hospital, North Riding Infirmary and West Lane Hospital transferred to JCUH upon completion of the scheme in August 2003.

The scheme comprised 60,000m<sup>2</sup> of new build with 11,000m<sup>2</sup> of refurbishment, with an approximate capital cost of £157 million. Upon completion of the scheme the Trust granted a head lease with associated rights to Endeavour SCH Plc for a period of 30 years. Endeavour maintain the site, providing facilities management services via Serco Group plc (formerly Sovereign Healthcare), and grant an underlease with associated rights to the Trust for the use of the buildings. The Trust makes a unitary payment, quarterly in advance, to Endeavour SCH Plc for use of the building and associated facilities management services that amounts to approximately £64.945 million per annum excluding VAT. An element of the payment is also set aside to fund lifecycle expenditure amounting to £13.164 million. In return the Trust receives guaranteed income of approximately £0.364 million in respect of mall retail units, laundry and catering income. Responsibility for the collection of car parking income transferred back to the Trust from 1 April 2014.

The annual service fee is indexed linked in line with the 12 month rolling average of retail price indices (CHAW) as at January of each year, for the following contract year. The availability fee is uplifted in line with RPI twice a year based upon the published CHAW indices for March (effective from 1 April) and September (effective from 1 October).

The soft services element of the facilities management service is subject to market testing or benchmarking every 5 years, although the Trust has the option to extend this period by a further 12 months. The hard service element of the service is subject to benchmarking every 10 years.

Upon the Contract Period Expiry Date the Trust has a number of options ("the Expiry Options"):

- to extend the agreement on terms to be agreed with the concessionaire;
- to re-tender for the provision of services;
- to leave the hospital and terminate the underlease; and
- to remain in the hospital and assume responsibility for the provision of services.

Under the control test of IFRIC 12, the asset has been treated as an asset of the Trust. The substance of the contract is that the Trust has a finance lease and payments to the contractor comprise 2 elements; an imputed finance lease charge and service charges.

Total imputed finance lease obligations for on-Statement of Financial Position PFI contracts due:

# Pensions relating to staff

The amounts relate to sums payable to former employees who have retired prematurely. The outstanding liability is based on actuarial guidance from the NHS Pension Agency using computed life expectancies for the pension recipients. Variations in life expectancy will impact on these figures and the timings of payments. There is no contingent liability associated with this provision.

## Legal claims

The timings and amounts within the provision are based upon the NHS Litigation Authority's assessment of probabilities in line with IAS 37 guidance. The provision relates to employer and public liability claims with the Group and Trust raised by staff and patients. This provision also includes injury benefit claims made by NHS employees with the level of awards determined by the NHS Pension Agency. The discounted provision is based on notifications received from the agency.

£226.700 million is included in the provisions of the NHS Litigation Authority at 31 March 2023, in respect of clinical negligence liabilities of the Group and Trust (2021/22, £327.493 million). This is not provided for within these financial statements.

## Restructuring

The amount relates to the creation of a provision for the obligations arising from internal restructuring which will be undertaken in 2023/24.

## Clinicians pension tax reimbursement

The provision is held for lump sums due to clinicians on retirement where 'scheme pays' is expected to be used to settle the additional tax liability due under the 2019/20 scheme.

# 23.4 Fair values of financial instruments

The fair values of financial instruments are considered to be materially similar to the book values.

## 23.5 Financial risk management

Financial reporting standard IFRS 7 requires disclosure of the role that financial instruments have had during the year in creating or changing the risks a body faces in undertaking its activities. Due to the continuing service provider relationship that the NHS Foundation Trust has with Clinical Commissioning Groups and NHS England and the way that these are financed, the NHS Foundation Trust is not exposed to the degree of financial risk faced by business entities. Financial instruments play a much more limited role in creating or changing risk than would be typical of listed companies, to which the financial reporting standards mainly apply. The Group has limited powers to invest surplus funds and requires support to deliver the capital programme in the form of Public Dividend Capital (PDC) from the Department of Health and Social Care. Financial assets and liabilities are only generated by the day-to-day operational activities of the Group in undertaking its operations.

The Group's treasury management operations are carried out by the finance department, within parameters defined formally within the Group's Treasury Management Policy and Standing Financial Instructions agreed by the Board. A key theme of the Group's strategic direction is business stability which means achieving target levels of financial performance. To support this target, the key objectives of the Treasury Management Policy includes the achievement of a competitive return on surplus cash balances and effectively identifying and managing financial risk.

## 23. Financial instruments (continued)

## 23.5 Financial risk management (continued)

## Currency risk

The Group is principally a domestic organisation with the great majority of transactions, assets and liabilities being in the UK and sterling based. The Group has no overseas operations. The Group therefore has low exposure to currency rate fluctuations.

## Interest rate risk

The Group and Trust receives support from the government for capital expenditure, subject to affordability. The Group and Trust therefore has low exposure to interest rate fluctuations.

The Trust is exposed to interest rate risk on the PFI scheme due to the linkage of the availability payment to RPI which impacts on contingent rent, PFI lifecycle and non-operating expenditure.

## Credit risk

The majority of the Group's income comes from contracts with other public sector bodies, the Group has low exposure to credit risk. The maximum exposures as at 31 March 2023 are in receivables from customers, as disclosed in Note 16.

The financial instruments utilised by the Group and Trust are deemed to be minimum risk. The Group's investments are held within the Charity with investment management undertaken by CCLA utilising a COIF Charities Ethical Investment Fund.

# Liquidity risk

The Group's operating costs are incurred under contracts with Clinical Commissioning Groups, Integrated Care Boards and NHS England, which are financed from resources voted annually by Parliament. The Group and Trust funds its capital expenditure from funds allocated by the Department of Health and Social Care and does not have any flexibility to vary principal or interest payments on any of its fixed term liabilities, including those relating to the PFI contract. Further information on risk within the Group and Trust's annual plans is included within the disclosure on Going Concern within the Annual Report.

## 24. Events after the reporting year

There was one significant event after the end of the reporting period. This adjusted event concerned the enforcement by NHSE and DHSC of the application of the backdated pay award due to staff. Funding was received from NHSE for the award and the payment to staff through payroll were actioned in June 2023.

## 25. Related party information

## 25.1 Related party transactions

South Tees Hospitals NHS Foundation Trust is a body corporate established by order of the Secretary of State for Health. The Trust completes national returns in accordance with the requirements of IAS 24 "Related Party Disclosures".

## 25.2 Whole of Government Accounts bodies

All government bodies which fall within the Whole of Government accounts boundary are regarded as related parties because they are all under the common control of HM Government and Parliament. This includes for example, all NHS bodies, all local authorities and central government bodies. The Trust's major related parties include:

- Tees Valley CCG;
- North Yorkshire CCG;
- County Durham CCG;
- NHS North East and North Cumbria ICB
- NHS Humber and North Yorkshire ICB
- Health Education England;
- NHS Property Services;
- NHS Resolution;
- Department of Health and Social Care;
- NHS England;
- County Durham and Darlington NHS Foundation
- North Tees and Hartlepool NHS Foundation Trust;
- Northumbria Healthcare NHS Foundation Trust;
- The Newcastle Upon Tyne Hospitals NHS Foundation Trust;
- HM Revenue and Customs;
- Ministry of Defence;
- NHS Pension Scheme;
- NHS Blood and Transplant; and
- NHS Professionals.

## 25.3 Charitable funds

The Trust receives revenue and capital payments from a number of charitable funds, including South Tees Hospitals Charity and Associated Funds. The Trust Board members are also corporate trustees of the charity. The accounts of South Tees Hospitals Charity and Associated Funds are consolidated into the Trust's Annual Accounts as detailed in Accounting Policies 1.2 and Note 12 to the Accounts.

## **25.4 Board Members and Directors**

During the year no Group Board Members or members of the key management staff, or parties related to any of them, have undertaken any material transactions with South Tees Hospitals NHS Foundation Trust.

Declarations of interests, completed on an annual basis by Executive and Non-Executive Directors, have been reviewed to identify any related party relationships requiring disclosure within this note.

IAS 24 specifically requires the separate disclosure of compensation payments made to management. In line with the standard, the HM Treasury has given dispensation that this requirement will be satisfied through disclosure in the Remuneration Report included in the Group and Trust's Annual Report.

#### 26. Losses and special payments

The total number and value of losses and special payments in year amounted to the following:

|                                                                          | 2022/23         |                                 | 2021/22         |                                 |

(\*) In 2021/22 the Trust included overtime corrective payments covering nationally funded payments and additional amounts agreed and paid by the Trust in line with the Flowers judgement. These payments were considered as special payments for which HMT approval was sought nationally by NHS England on local employers' behalf.

The amounts included above are reported on an accruals basis and exclude provisions for future losses.

There were no special severance payments (2021/22, there were no cases over £100,000 and there were no severance payments requiring HMT approval) arising from divisional restructuring or other cases of clinical negligence, fraud, personal injury, compensation under legal obligation or fruitless payment cases where the net payment exceeded £300,000.
